THE CENTRE COUNTY FAIR

Great Preparations Now in Progress.

A LIST OF THE EXHIBITS

Excursion Rates Over all the Railroads Leading into Bellefonte, With Special Trains.

FAST HORSE RACING EVERY DAY

It is impossible at this time to estimate the crowds that will be in attendance at The Great Centre County Fair next week. Indications all point to the largest gatherings of people that have ever been recorded within the county. And to please the great crowds the Fair will be all that is expected of it. This means that it will be far greater and grander than ever before.

Without going into details we give you the following list of things you may expect to see :

A stupendous exhibit of the products of the fields, gardens and homes of Centre county.

A fine display of horses, cattle, sheep and swine.

Exciting racing on all the days of the Fair.

The great county race on Friday.

Championship base ball games between Pine Grove Mills and Baileyville on Wednesday. Hecla Park and Snow Shoe on Thursday. Spring Mills and Millheim on Friday. All of these games will be called at 11 a. m. sharp.

The Bijou Vaudeville Circus including dogs and ponies.

Mlle Maude DeLora the queen of aerialists.

Catharine La Belle the premier contortionist.

The Brothers Trevelix, the European sensational tumblers and equilibrists.

Stuckharts famous animal show.

Prof. Probet's four-year-old child wonder who charms snakes and has performing rats and mice.

A merry-go-round and a ferris wheel.

Landis Electrical Arcade of moving pictures.

A magnificent exhibit of the products of the State of Virginia made by the Norfolk and Western R. R.

The Pennsylvania State College display of fruits, flowers, grain and poultry.

Countless other divertisements and shows of agricultural implements, dairy paraphernalia and wagons and buggies.

The Evangelical church of Bellefonte will serve meals on the grounds at 25 cents each.

SPECIAL TRAIN SERVICE.

For persons along the bald Eagle valley and the line to Snow Shoe no special trains will be necessary as the regulars run so as to accommodate all, coming and going. All trains except the noon flier will stop at the Fair grounds. Excursion tickets will be sold from all stations.

For persons along the Bellefonte Central the regular trains will be ample except on Wednesday when on account of the great reform meeting that night a special will leave Bellefonte at 10:30 to run clear through to Pine Grove Mills. Excursion rates

For persons along the C. R. R. of Pennsylvania excursion rates will prevail on Wednesday and Friday, but on Thursday a special rate will be given. On Thursday a special train will leave Mill Hall at noon arriving at the Fair grounds at 1 p. m. The rate from Mill Hall for the round trip will be only 60 cents, and proportionate rates from all other points.

For persons along the Lewisburg and Tyrone railroad excursion rates will be given and special train will run from Bellefonte to Coburn each evening. On Wednesday evening it will leave Bellefonte after the big reform meeting in the Court house at which Emery, Berry and others will speak and on Thursday and Friday evenings it will leave at 7 p. m.

Candidates Emery, Creasy, Black and State Treasurer Berry will visit the fair on Wednesday afternoon.

WOMAN 72 LOST IN WOODS.

Grandmother Stover of Livonia, Pa., was lost for fifty hours.

The following we clip from todays North American.

Lost in the woods for two days and two nights, without food or water, Mrs. Susan Stover, of Livonia, this county, 72 years old, was today found on a mountain top, nine miles from her home by a lumberman.

Her clothing was torn from her body and her hands and feet were bleeding from the despairing efforts she had made to find her way out.

Last Friday noon, Mrs. Susan Stover left her home to go to a chestnut grove to gather chestnuts. Not returning by supper time, search was instituted for her but without avail.

News that Grandmother Stover was lost in the woods soon spread, and twenty or more men, equipped with lanterns and armed with guns, took up the trail through the woods.

All of Saturday night the search was kept up and no trace of the aged woman found. Saturday fifty or more men went on the hunt of her. They found the trail of where she had gone through the woods and followed it for four or five miles, when all trace was lost. The search was kept up Saturday night without avail.

Yesterday morning fully 150 people out to make a thorough search of all the mountains, which are the wildest in this part of the State.

Even church was abandoned, preachers and others joining the search, which was kept up until late yesterday afternoon, when the entire party returned without the woman and completely baffled as to where she could have gone.

Her sons were well-nigh distracted, when about dark a man and woman appeared in a buggy who brought the joyful news that Grandmother Stover had been found by a lumberman on top of the fourth mountain, distant about nine miles from her home.

She had been away over fifty hours, and had had nothing to eat or drink after leaving home, and had slept in the woods two nights, hearing on all sides the roar of the wild animals, which infest the mountains.

Drenched to the skin from the heavy rain of Sunday, the old woman presented a pitiful spectacle her clothing being torn from her body and her hands and feet badly cut and bruised from climbing over and falling on the huge rocks. She was brought home, and, although in a serious condition from the exposure to which she was subjected her recovery is expected.

Wedding at Sandy Ridge.

The pleasant home of Mr. and Mrs. Thomas H. Twiggs at Sandy Ridge, was the scene of a very pretty wedding Wednesday evening at 6 o'clock, when Rev. George E Taylor, of Philipsburg united in marriage Chester Twigg and Miss Veda Kling, both of Sandy Ridge. The wedding was a very pleasant affair, there being about seventy-five guests present. The best man was Earl Miller and the bride's maid was Miss Annie Twigg. Immediately after the ceremony a very sumptuous repast was served, which was heartily enjoyed by all present. The presents were many mostly useful, consisting of silverware, furniture, linens, and many other articles. There were guests present from Ramey, Benore, Reynoldsville, Curwensville, Smoke Run, Madera and Philipsburg. Miss Kling is one of Sandy Ridge's most charming young ladies, and the groom is a very clever young man, who is employed part of time in the post office and H. S. Stuart's store.

Robbed of $100.00.

George Robb, of Coleville, an aged gentleman, who by hard work and close saving, accumulated $110 and instead of putting it in bank, kept it in the house, $100 of which he sewed up in a chaff tick and the other $10 was kept in the cupboard, to be used in buying things for the house, as they were needed. Sunday, sometime, while Mr and Mrs. Robb were away, some thief broke into the house and ransacked everything, and in cutting open the chaff-tick came onto the $100 which consisted of ten $10 bills. In looking through the cupboard they came across the other $10 and took it. Mr. Robb is a poor man and thus the loss to him is a very heavy one. Mr. Robb has no suspictions as to who did the dastardly and cowardly trick, but every effort should be put forth to bring the perpetrator to justice.

SCENE AT MASS MEETING

Dr. Swallow Interrupts Speaker

AT EMERY GATHERING

Audience Was Again in Uproar When Emery Was Questioned About Contributions.

GREAT CONFUSION THEN FOLLOWED

Harrisburg, Pa., Oct. 2.—Rev. Dr. Elias C. Swallow, Prohibition candidate for president in 1904, created a scene in a mass meeting in the court house here by interrupting Rudolph Blankenburg, of Philadelphia, in the midst of a speech in behalf of the Democratic-Lincoln state ticket, headed by Lewis Emery, Jr., candidate for governor. Swallow is opposed to Emery's candidacy and sat in the rear of the hall, taking notes of the speeches of Emery and Jere S. Black, the nominee for lieutenant governor.

During Blankenburg's speech the speaker said that if he was trying the Republican party in a court of justice, one of the questions he would ask was what Swallow was doing for the Republican party. Blankenburg said Swallow's reply would be that "If I did not pretend to be a Christian minister, I would reply that it is none of your damn business."

Swallow rose to reply, and immediately the audience was on its feet, and Swallow was unable to make himself heard because of the confusion.

"I am willing the doctor should be given an opportunity," said Blankenburg, when he could make himself heard.

"I want to say to you, doctor, that you are doing great harm to the profession you represent by your unwarranted attacks on Mr. Emery. You are not following the precepts of the Master whom you presume to represent. You will have a chance to reply in your paper, 150,000 copies of which you are selling to the Republican state committee."

Swallow left his seat, amid great confusion, and walked to where Blankenburg was speaking, and extended his hand to the speaker, who shook it heartily.

"I understood you asked me a question," said Swallow.

"No, I did not," was the reply.

This closed the incident, and Blankenburg finished his speech without further interruption from Swallow who sat throughout the meeting and frequently applauded Blankenburg's remarks.

When Emery had finished his speech, C. E. Newlin, of Indianapolis who was sitting beside Swallow in the rear of the room, asked the candidate if it was true that Messrs. Durham and McNichol were partners with him in an oil company. Emery replied that these two men were stockholders in a company with which he is connected. Newlin then asked Emery if he had not stated in a letter that he would contribute to a brewery as he would to a church. Before Emery could reply the audience was in an uproar and demanded that Newlin be silenced. Newlin walked down the aisle to the speaker's stand and explained that he meant no harm, and that he was only seeking information. During the conversation Blankenburg began speaking. He had hardly begun his remarks when Swallow interrupted and the scene followed.

State Federation of Pennsylvania Women.

The eleventh annual meeting of the State Federation of Pennsylvania Women will be held at State College, Tuesday, Wednesday and Thursday, October 16th, 17th and 18th, by invitation of the Woman's Club of State College.

The opening session will be Tuesday, the 16th, at 10.30 a. m. All meetings are to be held in the Schwab Auditorium, by courtesy of the Pennsylvania State College.

Domestic Science, its educational value and its influence in the American home, will be emphasied. Forestry and Civics will have their share of attention, and the reform in State and philanthropic institutions will be dwelt upon.

Miss Agnes Repplier, Mrs. Sarah Tyson Rorer and Mrs. Rudolph Blankenburg will be among the speakers at these meetings.

All of these meetings will be open and a cordial invitation to attend them is extended to all.

ANNUAL MEETING OF THE HOSPITAL

Held in the Arbitration Room of the Court House Thursday Evening.

The annual Meeting of the Bellefonte Hospital held in the Arbitration room of the Court House at Bellefonte, Pennsylvania, Thursday evening September 27th 1906, at 8:00 p. m. The following persons being present.

Mrs. D. H. Hastings, Mrs. Jno. N. Lane, Mrs. Joseph Ceader, Mrs. F. W. Crider, Mrs. H. E. Fenlon, Mrs. J. Will Conley, Miss Mary Meek, Miss Mary Blanchard, Mrs. Calloway, Dr. R. G. H. Hayes, Dr. J. L. Seibert, Mr. C. C. Shuey, Dr. Geo. F. Harris, Dr. John Sebring, Jr., Dr. M. J. Locke, Mr. F. W. Crider.

On motion duly seconded Mr. C. C. Shuey was elected Chairman of the Annual Meeting and W. Harrison Walker, Secretary.

The Treasurer made the following report, to wit :—that on January 1st, 1906, the receipts for the Hospital in the General Fund from August 1st, 1904 amounted to $5817.26, while the disbursements for the same period amounted to $5966.77 and that the excess of expenses over receipts during his term as Treasurer to January 1st, 1906 is $149.51

He further reported that orders have been drawn for all bills due to September 26th, 1906, leaving a balance of expenses over receipts of $227.21 in the General Fund.

In the "Special Funds" there is $20.00 in the hands of the Treasurer.

Dr. J. L. Seibert and C. C. Shuey were elected members of the Board of Managers for the term of four years.

MEETING OF THE BOARD OF MANAGERS.

The regular meeting of the Board of Managers of the Bellefonte Hospital was held in the Commissioner's office in the Court House, immediately following the annual meeting. The following officers and committees were elected and appointed for the coming year.

President, C. C. Shuey; Vice-president, Dr. J. L. Seibert; Secretary, George R. Meek; Treasurer, W. Harrison Walker; Finance Committee.

Dr. John Sebring, Jr.; F. W. Crider; George R. Meek.

House committee.

Dr. Geo. F. Harris, Dr. R. G. H. Hayes, W. Harrison Walker.

Auditing committee.

Col. W. Fred Reynolds, Dr. Geo. F. Harris, Dr. J. L. Seibert.

On motion of Dr. Harris seconded by Mr. Crider, the staff was enlarged by adding Dr. M. J. Locke, Dr. David Dale and Dr. W. W. Feidt.

The management of the hospital are undecided as yet what application to make of the funds which the ladies raised during the recent Midway. The ladies are considering the ides of enlarging the present hospital and Robert Cole, the architect has submitted plans for the same. He has also drawn plans for an entire new building. The present hospital is over-crowded and the matron has had to give up her room frequently to patients. They have more applications for admission than they can accommodate. There is no more worthy institution in our midst than the Bellefonte Hospital and we believe that any move to increase the capacity of the hospital would meet with the hearty approval of the people.

The hospital staff has been so arrranged as to include all the doctors in town and each has a certain branch of the work, for instance two will be in charge of the medical service, two in charge of the surgical department etc. Where two doctors are chosen for certain work their term of service is six month and where one only is selected for a certain work the term is one year. The new staff began their work October 1st.

The work of the hospital in Bellefonte is meeting with success and it deserves the hearty encouragement of all our citizens.

Death of H. C. Baney.

The many friends of Harry C. Baney formerly of Bellefonte but late of Atlantic City will be shocked to hear of his death which occurred at Atlantic City Friday. Although he had been a sufferer from Brights disease for the past year his death at this time was quite sudden and unexpected.

Mr. Baney was in the roofing business and was quite successful. He at one time conducted a grocery in Bellefonte. He was married to Miss Sarah Meyer a daughter of the late Thomas Meyer, of Benner township. He was 45 years of age and is survived by his wife but no children. He will be buried at Atlantic City.

—Rev. W. H. Spangler will preach in the U. B. church next Sunday morning and evening.

AMERICAN THE WINNER

Lieut. Lahm Victor in Balloon Race.

TOOK PLACE IN PARIS

Contestants for Bennett Cup Landed in England—In the Air Twenty-Three Hours.

CROSSED THE ENGLISH CHANNEL

Paris, Oct. 2.—The Aero club semi-officially announced that Lieutenant Frank P. Lahm, of the Sixth United States cavalry, one of the American contestants, was the victor in the first competition for the James Gordon Bennett cup for international aeronauts. The race was started Sunday afternoon, when 15 balloons, representing seven countries, sailed away from the Tuileries Gardens, in Paris. Lieutenant Lahm's apparent victory may be changed when the Hon. C. S. Rolls, one of the English contestants, is heard from. Rolls' landing has not yet been recorded, and there is some doubt regarding his relative position. Considerable anxiety is felt for his safety, although his experience and caution are regarded as certain to bring him safely to the ground.

Up to the present time, however, the performance of Lahm and Hersey, in the balloon United States, in reaching 15 miles north of Scarborough, England, is the best record attained by any one of the 15 starters. The members of the Aero club are inclined to believe that the United States was only prevented from proceeding farther because a current of air again threatened to carry her out over the North sea, with no apparent prospect, unless the direction of the wind changed, of finding land before making the coast of Norway.

Crowds of prominent aeronauts were at the club house awaiting telegrams reporting arrivals. The first reports recorded the landing of five balloons in Normandy. It was then considered certain that the remainder would cross the Channel, and a few hours later came dispatches telling of the landing of the Spanish and one French balloon on the south coast of England, and the report that four others, including the United States, had passed over Hastings, going due north.

In the meantime, the news of the accident to Santos Dumont aroused general sympathy, the Brazilian being very popular here. His arm was caught in the mechanism of his motor. His subsequent arrival at the Aero Club with one arm bandaged relieved the tension regarding the seriousness of his mishap. The Frenchmen were then aroused to cheerfulness at the report that Count de la Vaulx in the Walhalla had arrived at Norfolk. Later, however, when the landing at Hull of the Italian contestant, Signor Von Miller, in the Elfe, was announced it was seen that France's chances of winning had gone. Then the report of Lieutenant Lahm showed that he had reached farther north than any other starter, and it was generally thought that he would win. His balloon was in the air 23 hours.

M. Rolls, however, is still to be reckoned with, and a definite announcement of the result cannot yet be made. The absence of the Britannia, Rolls' balloon, from the list of landings causes increasing disquiet as the hours go by, some thinking that a current of air must have carried him out to sea, while others believe that he has landed somewhere in England and has no tyet been able to get to a telegraph wire. The Britannia was last seen near Hastings, England.

He Wanted a Pickle.

A number of hunters, having stopped at the home of a backwoodsman for the night, were seated at the table partaking of the meal prepared by the woodsman's good wife, a woman who, though removed from all social intercourse, still retained some of her manners. When it became apparent by the conversation that one of the party was an English lord, she proceeded to address him with due formality. "My lord will you have more of the venison? "My lord, allow me to fill your glass again," etc., etc.

The son of the house, a youth of four, silent, observant and duly impressed, noticed that his lordship was making an unsuccessful attempt to obtain some pickles that were beyond his reach. Wishing to help his mother in her effort at entertaining such an important guest, he startled those present by calling out, "Ma, God wants a pickle."

A GREAT SUCCESS.

The Maccabees Close Their Charter List—Many Visiting Knights Present.

The Knights of Maccabees held their third meeting and their first ceremonial session Wednesday in the Eagle's hall and it certainly was a great success all around the meeting not being over until after midnight. Many visitors were present from all parts of the state and over one hundred of the members were in attendance. A class of 39 was put through the iniatory ceremonies and all thoroughly enjoyed the beautiful work so ably put on by the distinguished workers present from a distance consisting of I. A. Mammaux of Pittstaking the part of Mattathias; Dr. I. W. Marstellar of White Haven as Judas Maccabeus; Deputy Great Commander S. S. Foutz of Reading Tent the largest in the state taking the part of King and General Appeller; and Dep. Great Commander Harry W. Philips of Philadelphia as Capt. of the Guard.

The Charter list closes with 187 members which is a record for a charter membership in organization and which record will not be broken for some time. Of course the many attractive features of the order have a great tendency to gain and hold its membership throughout the country the reserve now being $18.00 per head and will soon reach $25.00 the figure set that the actuaries contend the membership can stay stationary and pay itself out without a raise in the dues.

After the ceremonial work had been finished and the class instructed in a very pretty lecture by Deputy Foutz, the commander called Deputy Philips to the chair as master of ceremonies. Deputy Philips in a neat little speech speaking of the aid rendered him by many of the members in securing other members then presented John M. Sourbeck with a neat gold watch for his hustling help.

The Masters of ceremonies then called on Col. Hugh S. Taylor Demo Candidate in this district for Congress, who responded in a neat speech on fraternalism the duties of a member to his society. Harry Keller, Rep. Candidate for state Senate and Henry C. Quigley also made short stirring addresses when called upon.

Deputy Great Commander Foutz made a very fine talk on Maccabeeism as well as did Dr. Marsteller on the same subject in a good stirring address.

Dr. M. J. Locke, physician of this tent then arose and addressing the Commander spoke as follows: Sir Knight Philips, was much pleased to hear the remarks of Dr. I. W. Marstellar in reference to your work on behalf of the Maccabees. One month ago when you came into my office and announced that you intended starting a tent in Bellefonte, I had very little hopes of your success, but when the total number of 157 applications for the physicians endorsement reached me, I realized it was due to your honest open methods of work. Tonight you have given birth to the child of your creation, in a few days we understand you will leave us and it was to me one of the greatest pleasures of my life when your friends of Bellefonte tent requested me to present you this band of love in hopes of wedding more firmly our friendship. Place this ring upon your finger, may you live long to enjoy it. If it should fall your lot in life to pass through dark hours their trials and adversities may it give you strength and courage by its delicate pressure, may it remind you of a circle of friends, that you have in this illustrious little town in the central portion of the great commonwealth, that have learned to love and honor you."

It was a neat solid gold signet ring with the initials engraved on the seal and on the inside engraved "From Bellefonte Tent as a token of esteem, 1906."

Commander Kline of Beech Creek Tent also gave a short talk to being present with many members of his tent. Nearly all the surrounding Tents were represented. The meeting closed shortly after midnight being voted by all, particularly the visitors as one of the greatest successes ever attained in Fraternal secret society work.

Death of Mrs. Daniel Gordon.

Elizabeth, wife of Daniel Gordon, died at her home at Pleasant View, Sunday afternoon at 2:45 after an extended illness. She was 58 years of age and is survived by her husband and five children.

The funeral took place Tuesday afternoon at 2 o'clock from the Pleasant View Chapel. Interment in the Union cemetery.

THE HEARST PLATFORM

Candidate For Governor of New York Proclaims His Principles.

WAS RECEIVED WITH CHEERS

Declares He Is a Jefferson Democrat, and If Elected Will Restore the Government to Principles of Washington and Jefferson.

New York, Sept. 29.—The state ticket of the Independence League was ratified at a gathering that filled Madison Square Garden to its capacity. The Municipal Reform Alliance joined the leageu in the conduct of the meeting.

The principal addresses were delivered by William Randolph Hearst and Lewis Stuyvesant Chanler, respectively the candidates for governor and lieutenant governor on both the Democratic and Independence tickets.

The meeting had continued some time when Mr. Hearst entered the Garden. As he made his way to the platform the audience arose and greeted him with deafening cheers while the band played, and American flags were waved. Various district organizations paraded about the room and the demonstration was renewed again and again. It was nearly a half hour after his arrival when Mr. Hearst could make himself heard. He said in part:

"Before I received the nomination from any party I spoke at Syracuse and stated the principles in which I believed and framed my personal platform. Therefore, the nominations that have been given me were with a full understanding of exactly what I believed.

"I shall make the campaign according to my own honest opinions, and if elected shall conduct my administration according to my own convictions.

"I am a Jefferson Democrat, and that, as I understand it, is practically the same as a Lincoln Republican, for the Republican party was founded to restore the action of the government to the principles of Washington and Jefferson.

"I believe in the impartial enforcement of the laws that exist.

"I believe in public ownership of public utilities.

"But the first qualification for public ownership is honesty in office and independence in voting.

"I believe that the protective principle is valuable in itself, but has been unreasonably extended and outrageously abused.

"I believe in protection for infant industries.

"I believe in protection for American labor.

"I believe the tariff should be modified and public ownership inaugurated, but that both should be done cautiously and conservatively, with due regard to the stability of business interests and the perpetuation of the prosperity on which we all depend.

"I believe in the restraint and regulation of trusts and monopolies by law.

"I believe in labor unions and farmers' granges, and organizations that prompt the distribution of wealth, and I realize that the prosperity of legitimate business men depends upon the purchasing power of the masses.

"I believe in every measure that gives the people more direct control of their government.

"I believe in direct nominations and open primaries.

"I believe in purity in politics.

"I will run in this campaign not merely representing the Independence League, not merely the Democratic party, but, I hope, the people of the state of New York. I appeal to them and make my pledge to them to retain for them the rights they should have and to restore to them the liberites they have lost."

Thaw's Petition Denied.

New York, Sept. 29.—Justice Bischoff denied the application of counsel for Harry K. Thaw for the removal of his indictment from the court of generals sessions to the criminal branch of the supreme court of New York. Justice Bischoff found that the claim that a more speedy trial could be had in the supreme court than in the court of general sessions was not enough to justify a removal, as, if it were, each of the 23 persons now in confinement in the county on the charge of homicide could make a similar appeals.

Labor Unionists In Politics.

Scranton, Pa., Sept. 25.—George A. Kotzwinkle, an officer of the Cigarmakers' Union, was nominated for the legislature by the Democrats of the Third Lackawanna district, in which Fred Erhart has been renominated by the Republicans. Kotzwinkle is the sixth labor unionist nominated for the legislature by the Lackawanna Democrats. The Republicans have nominated two. In addition to this, the Democrats have nominated District President T. D. Nicholls, of the United Mine Workers, for congress.

New Philippine Commissioners.

Washington, Sept. 28.—President Roosevelt has appointed W. Morgan Shuster as a member of the Philippine commission to fill one of the vacancies caused by the resignation of Governor General Wright and Governor General Ide. The other vacancy recently was filled by the appointment of Judge Charles E. Magoon, American minister to Panama and governor of the canal zone.

VERDICT FOR RAILROAD VICTIM

Jesse N. Wickizer Awarded $25,000 By Camden Jury.

Camden, N. J., Sept. 28.—A jury in the circuit court here awarded Jesse N. Wickizer a verdict of $25,000 against the Atlantic City Railroad company for injuries he received in December last.

Wickizer was working for the Phoenix Iron company on a bridge that was being built over the Tuckahoe river. A gravel train approached the place, but could not be stopped, as the brakes refused to work. His fellow-workmen jumped, btu Wickizer, not seeing the danger, was hurled to the river belok, sustaining a fractured skull and other injuries that have incapacitated him for work.

INJURED IN COLLEGE RUSH

Columbian Soph Kicked In the Head and May Die.

New York, Sept. 28.—H. T. Bauchle, of this city, a sophomore in Columbia university, is in a hospital in a danerous condition after having been injured in the annual rush of the freshma nand sophomore classes on the Columbia camps. In the midst of the rush Bauchle fell and was accidentally kicked in the head by the other contestants. The rush as stopped and aid was promptly given him. He soon became unconscious and was removed to a hospital, where a blood clot was removed from his brain. The doctor said that he had an even chance for recovery.

FOUND NEW VEIN OF HARD COAL

Reading Company Finds Seam Mile Long and Twelve Feet Thick.

Mahanoy City, Pa., Sept. 28.—A new vein of coal extending a mile in length and an eight of a mile in width, with an average thickness of 12 feet, has been discovered by the Philadelphia & Reading Coal and Iron company in the Mahanoy Valley. It contains millions of tons valued at from $50,000,000 to $75,000,000. Mining experts say it will require over 50 years to exhaust the seam.

Wealthy Man Shot By Boy.

Hudson, N. Y., Sept. 28.—Clifford Bonneville, a wealthy resident of Linlithgo, died from wounds from a gun fired by J. Foster Feller, a 15-year-old son of Deputy Sheriff John H. Feller. On Monday Bonneville, who had been drinking, it is said, drove his wife and five children out of doors, and they sought refuge in the Feller home. Later he obtained two revolvers and went to the Feller house and pounded on the door. He had smashed in a panel of the door, when young Feller, from an upper story window, warned him away. Bonneville pointed a revolver at the youth, so the latter says, but Feller fired the contents of a double-barrelled shotgun at him, mortally wounding him.

Eloper Killed Himself.

Paterson, N. J., Sept. 29.—Earl Brigham, aged 27 years, who eloped from Greene, N. Y., with a married woman, Cora E. Hackett, of the same place, killed himself in a boarding house here after unsuccessfully trying to murder the woman. Brigham was out of money and had been unable to obtain work. He quarreled with Mrs. Hackett, attacked her with a pair of scissors, but being aunable to overcome her shot himself through the brain. In defending herself Mrs. Hackett's hands were badly cut.

Hanged For Attempted Asault.

Richmond, Va., Sept. 29.—Jim Bagley, negro, was hanged at Saluda, Middlesex county, for attempted criminal assault on Miss Cora Stanley, a deaf mute. From the gallows he warned his race to let his fate be a warning to them.

DO YOU KNOW

That Dr. Pierce's Favorite Prescription is the only medicine sold through druggists for woman's weaknesses and peculiar ailments that does not contain large quantities of alcohol? It is also the only medicine, especially prepared for the cure of the delicate diseases peculiar to women, the maker of which is not afraid to take his patients into his full confidence, by printing upon each bottle wrapper all the ingredients entering into the medicine. Ask your druggist if this is not true.

"Favorite Prescription," too, is the only medicine for women, all the ingredients of which have the unqualified endorsement of the leading medical writers of the several schools of practice, recommending them for the cure of the diseases for which the "Prescription" is advised. Write to Dr. R. V. Pierce, Buffalo, N. Y., for a *free* booklet, and read the numerous extracts from standard medical authorities praising the several ingredients of which Dr. Pierce's medicines are made, and don't forget that no other medicines put up for sale through druggists for domestic use can show any such *professional* endorsement. This, of itself, is of far more weight and importance than any amount of so-called "testimonials" so conspicuously flaunted before the public, in favor of the alcoholic compounds.

The "Favorite Prescription" cures all woman's peculiar weaknesses and derangements, thus banishing the periodical headaches, backaches, bearing-down distress, tenderness and draging-down sensations in lower abdomen, accompanied by weakening and disagreeable catarrhal, pelvic drains and kindred symptoms.

Dr. Pierce and his staff of skilled specialists may be consulted free by addressing as above. All correspondence is treated as sacredly confidential. By consulting in this way the disagreeable questionings and personal "examinations" are avoided.

The People's Common Sense Medical Adviser contains some very interesting and valuable chapters on the diseases peculiar to women. It contains over one thousand pages. It is sent post paid, on receipt of sufficient in one-cent stamps to pay cost of mailing only, or 21 cents for a copy in flexible paper covers, or 31 cents for a cloth-bound copy. Address Dr. R. V. Pierce as above.

Dr. Pierce's Pellets regulate and invigorate stomach, liver and bowels. One a laxative, two or three cathartic.

STORM HIT MOBILE HARD

Many Lives Lost and 5000 Houses Damaged.

PROPERTY LOSS FULLY $3,000,000

Water From Bay Was Blown Into City By Gale and Was Seven Feet Deep In Business Section—Many Ships Sunk.

Mobile, Ala., Sept. 29.—Loss of life variously estimated at from five to 50 persons, many people injured, 5000 houses damaged, the business devastated and a property loss of fully $3,000,000 is the effect of a tropical hurricane of the last 48 hours on the city of Mobile.

The storm struck Mobile Wednesday midnight, and raged for many hours, the wind reaching a velocity of 90 miles an hour. Water from Mobile Bay was blown into the city by the gale, and for a time the sea stood seven feet deep in the wholesale quarter of Mobile, which includes that part of the city from Royal street to the Alabama river.

The loss of life is believed to be mainly among negroes, although conditions are so chaotic that information is indefinite. Shipping suffered severely.

Among the steamers sunk were the J. P. Schuh, the Mary E. Staples, the Mary S. Blees, Cama, Overton, Hattie B. Moore, City of Camden, the United States revenue cutter Alert and many other smaller craft. It is feared that the crews of these boats were lost, but nothing of a confirmationary nature can be given at this time.

Mobile has been placed under control of the militia. Nobody is permitted on the streets except newspaper men and persons wearing badges. Much apprehension is felt for the suburban towns as it is feared that they have been obliterated. The chances are that the loss of life on Dauphin Island is heavy Many fishermen live on Dauphin Island and other outlying marshy tracts, from which no tidings have been received.

The suffering in Mobile is severe The annihilation of transportation facilities has shut off all supplies, and unless help reaches Mobile from the outside world soon, great distress will result.

Every church in Mobile was damaged though Christ Church Cathedral and St. Francis Street Baptist church suffered more than others. The damage to Christ Church Cathedral is estimated at $40,000, and St. Francis Street Baptist church at $10,000.

Mobile's shipping suffered more than anything else. Many of the river boats are now beached or sunken, all complete wrecks.

The docks and those of private corporations are fearfully wrecked. The revenue cutter Alert has gone down in Mobile river. She was rammed by some unknown vessel, and sank immediately. Her crew is believed to have escaped, but nothing has been seen of them.

Much fear is entertained for Fort Morgan, where the government quarantine station is situated and many soldiers live.

In the city many persons and much live stock were rescued after heroic efforts.

Between 6 o'clock Thursday evening and Friday noon trees were felled and roofs were crushed by hundreds Through the streets, carried by the terrific wind, were hurled thousands of pieces of slate, strips of tin roofing, cornices, shingles and in fact all kinds of debris. Blinds were torn from their fastenings and windows smashed as though of tissue paper. Many persons were seriously injured and cut by flying slate, tin and glass. The railroads have started wreckers to clean up and to repair tracks, but their task is difficult.

Fire did not break out in the city The Mobile county court house presents a wrecked appearance. The clock in the tower was blown out by the wind. The Union station at the end of Government street, which caught fire several days ago, is damaged considerably. Its windows are broken and cornices and shingles are gone.

Fruit trees and fall vegetable crops all over Southern Alabama and Mississippi are ruined. So also is the cotton, sugar cane and other crops. One Mississippi planter said he would willingly accept $15 for his cotton crop and feel that he had a fair deal.

Government Pays Interest.

Washington, Sept. 14.—Enlisted men enjoy the right to deposit their savings with army paymasters, and congress annually appropriates the sum necessary to pay interest on these deposits. The courtesy never has been extended to officers, but Lieutenant General Corbin in a report to the war department says the discrimination should be terminated, especially where it affects officers serving in remote stations in the Philippines and Alaska, where the usual banking facilities found at home are not available.

Two Soldiers Killed by Pulajanes.

Manila, Sept. 14.—A column of the 13th infantry, under Captain Fassett, was fired upon at La Paz, Island of Leyte, by Pulajanes on the night of September 10. Corporal D. H. Pierce, of Company A, and Private A. E. Winegardner, of Company B, were killed. A battalion of the 13th inrantry was camped at La Paz. The Pulajanes fired and then ran, pursuing the same tactics used by the insurrectos.

GIBBONEY AGAIN NOMINATED

Philadelphia Reformers Name Him For District Attorney.

Philadelphia, Sept. 28.—The reconvened City Party again nominated D Clarence Gibboney for district attorney by a vote of 611½ to 409½ for Frederick Shoyer. At a previous convention held last week Gibboney won by less than 30 votes. Mayor Weaver, who was backing Shoyer for the office, charged that delegates had been bribed to vote for Gibboney, and the latter promptly declined the nomination. A committee consisting of seven delegates was appointed, and unanimously declared that "the nomination of D. Clarence Gibboney was honestly made by the first City Party convention."

Murderess Stabbed Nurse.

Newburgh, N. Y., Sept. 28.—Lizzie Halliday, a murderess confined in the Matteawan hospital for insane criminals, made a murderous assault on female attendant Miss Nellie Wicks, aged 21. Miss Wicks had occasion to go into the lavatory adjoining the ward about 8.30. The Halliday woman followed her in, knocked her down and taking a pain of scissors from Miss Wicks, stabbed her in the throat. Miss Wicks died two hours later. Lizzie Halliday, who is a gypsy, in 1893 killed her husband, Paul, and two women, concealing the bodies under the house at Burlington, a little place in Sullivan county.

Drugs Should be Handled carefully.

According to the figures given out in Chicago short time ago, 2,048 persons were killed or injured during a single year by accidents resulting from sheer carlessness in handling poisons, drug and medicines Of these 2,048 cases 892 were fatal in a single year as the result of onlyone form of carelessness.

The figures referred to above have to do only with accidents resulting from the misuse of medicine, drugs and poisons, and serve a useful purpose in calling attention to a needless waste of human life that can, and ought to be, completely avoided. It is almost criminal carelessness to leave within the reach of children any medicine, or poison, or any article whatever, which, if swallowed by a child would cause injury. It is particularly importan that medicines and poisons be kept in a cupboard, under lock and key if possible, and that before medicine is taken it be ascertained with absolute certainty that the right bottle has been secured, and that the proper dose is taken. Medicine should never be taken in the dark, and never without an inspection of the label and a positive assurance that no mistake is being made.

It seems almost impossible that there can be so much fool carelessness as is shown by the fact that 2,048 persons were injured in a single year from the causes explained. It certainly is time that in every household, a fresh determination be reached to keep all medicines and poisons in a closed closet, far away from the reach of children. If this is done in every home there will be no more statistics to show that 892 lives have been sacrificed in this manner in a single year.

Few medicines which will produce the result for which medicine is intended can be taken with impunity, for the drugs from which the medicinal effect is secured are not intended to be taken except in small quantities. The directions for taking should always be given on the bottle.

Few Dead Delinquents

Out west no man dies content unless he has paid his newspaper subscription, for the editors have a way of squaring things in their obituary accounts. For instance, an Indian Territory editor recently took the occasion of the death of a reader to write this: "Deceased was a mild mannered man, with a mouth for whisky. He came here at night with another man's wife and joined the church at the first opportunity. He owed us $7 on the per."—Lyons (N. Y.) Review.

A WOMAN'S BACK

The Aches and Pains Will Disappear if the Advice of This Bellefonte Citizen is Followed.

A woman's back has many aches and pains.

Most times 'tis the kidneys' fault.

Backache is really kidney ache;

That's why Doan's Kidney Pills cure it.

Many Bellefontt women know this.

Read what one has to say about

Mrs. James Rine, of 239 West High St., says "My trouble was a torturing pain across the small of the back. I tried several remedies without finding relief. Finally my husband who had used Doan's Kidney Pills for the same advised me to try them and got me a box at Green's drug store. Before I had taken the contents of one box I was entirely free from pain in my back Doan's Kidney Pills are reliable and certainly worthy of recommendation."

DISARMING CUBAN REVOLUTIONISTS

Work Is Already Proceeding Peacefully and Quietly.

RUSHING U. S. TROOPS TO ISLAND

Mobilization of Forces Is Under Way, and 5000 Will Sail From Newport News in a Few Days—Impossible to Tell How Long Intervention Will Continue.

Havana, Oct. 1.—The work of disposing peacefully of the revolutionary forces in arms against the Cuban government is already practically under way. Brigadier General Frederick Funston, chairman of the disarmament commission, had two amicable conferences with Generals Pino Guerra and Del Castilla, and arranged a program perfectly satisfactory to all concerned.

In fact, General Funston said that the wind up will be so smooth and rapid that it will take much less time than had been anticipated.

The purpose of the United States in assuming control of Cuba is expressed—and its good faith pledged—in the following passage of Governor Taft's proclamation:

"The provisional government hereby established will be maintained only long enough to restore order, peace and public confidence by direction of and in the name of the president of the United States, and to hold such elections as may be necessary to determine on those persons upon whom the permanent government of the republic should be devolved."

Sunday at the palace passed quietly and rather gloomily. There are as yet no signs of Secertary Taft's actual occupancy of that edifice, which today was the scene of a number of farewells to Ex-President Palma and his family. The members of the diplomatic corps and the foreign consuls called in a body to say good-bye.

They gave expression to many sincere words of friendship and appreciation of the character and kindness of the late head of the republic. Senor Palma received all his visitors with quiet dignity, and seemed entirely reconciled to going, although he still appears dejected at the outcome of the revolution.

Secretary Taft sent a letter to Senor Palma saying he desired to escort him to the railroad station, and show him every courtesy due his exalted position. Senor Palma thanked Secreetary Taft cordially, but said he wished to leave quietly and without ceremony.

The disarmament commission has decided that the rebels shall not receive payment for their arms, but each man will be given transportation and subsistence until he reaches home. The program of disarmament is simply that one member of the commission, accompanied by one or more representatives of the revolutionists, will visit each command. The arms will be deposited with the battalion commander, who will turn them over to the commission. The rebels will take their horses home, the animals which have been stolen to be returned later to the owners on identification.

In order to expedite the return home of the large number of revolutionists in Pinar del Rio province and avoid possible disturbances during the operation, a special train will be run, beginning Wednesday, from the point on the line nearest the rebel camps to San Juan de Martinez, the terminus of the western railroad. Men and horses will be distributed at the intermediate stations. The provisional government has no expectation that even a considerable number of the revolutionists will surrender their arms. Most of the weapons are the personal property of the men carrying them.

General Guerra himself will assist in superintending the work of the return of his men to their homes after the forces in Pinar del Rio province have given over their arms. General Funston expects to remain in Havana in general charge of the work of disarmament. When this is completed he will take command of all the United States troops in Cuba.

General Pino Guerra, speaking of the new situation in the island, said all the men of his forces were eminently satisfied with the arrangements. He expressed the belief that the stability of the government was now assured and predicted that never again would there be a revolution in Cuba, thanks largely to the United States government for the hand it has taken in the settlement of the difficulty.

Governor Taft has informed all the members of the Palma cabinet that he would appoint ministers in about 10 days; in the meantime the sub-secretaries are acting. It is believed that some of the ex-members of the cabinet will be reinstated.

Governor Taft has sent a cablegram to Senor Quesada, the Cuban minister at Washington, requesting him not to press his resignation.

Governor Taft has received telegrams from provincial and municipal authorities throughout the island declaring allegiance to the provisional government. Many of these communications were couched in extravagant terms of fealty.

TROOPS MOVING TOWARD CUBA

First Expeditions Will Be Sent From New York and Tampa.

Washington, Oct. 1.—American troops are now moving toward Cuba. Mobilization of the forces will be at Newport News, Va., for the most part, although a part of the first expeditionary force to Cuba will be sent from New York and Tampa, Fla. Advices received at the departments of the military establishment of the government indicate that all is quiet in Cuba and that the insurgents intend to lay down their arms. The probability is that United States forces in the island will be landed only as a precautionary measure. So far as officials of the government here are advised, no trouble of a serious kind is anticipated; but in accordance with instructions from President Roosevelt, hurried preparations are being made for the sending of an expeditionary force of the army to Cuba.

The first American troops will be landed at Havana next Saturday. Meantime, the marines and bluejackets from the American fleet in Cuban waters will protect American interests and support Secretary Taft, the provisional governor of Cuba, in the preservation of order and the protection of life and property.

In official circles here American intervention is regarded as inevitable. How long it may continue it is impossible to foretell. The nature of the intervention and the preparations for it indicate a supervision of Cuban affairs on the part of the American government for an indefinite period. Arrangements have been concluded, not only for the first expeditionary force to Cuba of about 5600 men, but for a second force of equal numbers. No orders for the mobilization of the second force, of course, have been issued, but if the men are needed all arrangements have been completed for hurrying them to Cuba at the earliest possible moment. Whether more troops than are included in the first expedition will be sent to Cuba will depend upon the developments in the island during the next 10 days or two weeks.

It is certain, however, that a sufficient force of American troops will be maintained in Cuba to support the provisional government and to insure security to life and property pending the establishment of a stable government by the Cubans.

Secretary Taft, as the head of the president's special mission to Cuba, has available nearly 5000 marines and bluejackets, who could be landed on Cuban soil in a few hours in case of emergency. Other marines are en route to Cuba and will be available for emergency service in two or three days.

It will be a full week before the forces of the army can be landed in Cuba. The first detail of troops will leave New York on Wednesday aboard the army transport Sumner. They will arrive at Havana on Saturday afternoon next. It probably will be several days later before other troops of the first expeditionary force of the army will be able to reach Cuba. Where they will be landed is yet undetermined. It is likely they will go to Havana, but their precise destination will not be determined until practically the hour of the sailing of the transports.

PLOT TO KILL CZAR UNCOVERED

Two Armed Terrorists Arrested in the Palace at Peterhof.

St. Petersburg, Sept. 29.—A well-laid plot against the life of the emperor and one with all the chances of success on its side was discovered by the arrest of two armed terrorists, a man and a woman, in the quarters of one of the palace servants within the enclosure of the Alexandra palace, Peterhof, his majesty's secluded and closely guarded summer residence on Cronstadt Bay. The servant's son and another lackey named Klepnikoff, who were concerned in smuggling the terrorists through the guards and arranging their hiding place, were arrested for being implicated in the plot.

Emperor Nicholas had been expected to return to Peterhof this week, and it is presumed that the terrorists intended to lay in wait and seize a favorable opportunity to shoot him while he was promenading or playing with his children in the palace grounds.

"BLACK HAND" OUTRAGE

Grocery Store in New York Wrecked By a Bomb.

New York, Sept. 29.—A bomb was thrown, presumably from a tenement house at First avenue and 63d street, upon the skylight over the living room in the small grocery store of Salvatore Campisi, adjoining the tenement, while Campisi, his brother, and his wife's two children were seated under the skylight at dinner. The bomb exploded, tearing the inside of the living room to pieces, burying the Campisis under the wreckage and shaking the tenement house so greatly that the terrified inmates rushed into the street. Police reserves were hurried to the place, and the grocer's family was extricated from the debris dazed but not severely inured. Campisi showed the police three "Black Hand" letters he had received demanding $500 on penalty of having the store blown up if he failed to pay.

Mrs. Dowie Sues to Recover Home.

Detroit, Mich., Sept. 28.—A special from Muskegon, Mich., says: Mrs. Jane Dowie, wife of John Alexander Dowie, deposed leader of Zion City, has commenced action in the circuit court here to recover the $25,000 summer home at White Lake, in this county, which she deeded to him September 8, 1905.

$5,000,000 LOSS AT PENSACOLA

City Nearly Wrecked, Many Lives Lost and at Least 50 Ships Sunk.

Pensacola, Fla., Sept. 29.—The worst hurricane to visit this city in its history raged here furiously Friday, and with a gale still blowing the city presents a wrecked appearance and the damage is estimated at $5,000,000. The loss of life will be heavy among the mariners, but so far only one body has been recovered, a man named George Morgan, a fisherman. Other bodies are reported along the shore, but have not been recovered.

When the gale was at its highest and women and children were running frantically about the streets in darkness, the alarm of fire was sounded and this added to the confusion.

Business districts present an almost indescribable scene. Of the 50 or 60 big steamers and sailing vessels lying in the harbor, only five or six are there now. They have been driven ashore, and along the water front is a mass of wreckage of steamers, towboats, launches and sailing craft of all descriptions. Thirty fishing vessels in port have been destroyed or damaged, and the three big fish houses with their wharves are gone Great iron ships of 2000 or 3000 tons have been driven not only ashore, but have gone through houses a block from the water front.

Every house along the water front for a distance of 10 miles has been destroyed, and the wonder is that the loss of life is not greater.

The homeless families are housed in all portions of the city, but many will walk the streets without food or a place to sleep until something can be brought out of the chaos now existing. Added to the horror of the situation is the thieves, who are breaking open trunks all along the beach, entering unoccupied houses and stealing everything in sight. Several arrests have been made, but it is impossible to protect property under such conditions.

War vessels at the Pensecola navy yard undergoing repairs were the gunboats Vixen, Machias, Isla de Luzon and Gloucester, besides several smaller craft and the quartermaster's steamer Poe. hey were in an exposed condition, and it is feared they may have been beached.

RESCUED BY LIFE SAVERS

Yacht With Eight Persons Aboard Nearly Swamped Off Cape May.

Atlantic City, N. J., Oct. 1.—Advices received here say that the sloop yacht Fannie E. Moffitt, of Camden, with a crew of three men and eight passengers, was caught in a heavy sea off Cape May and that the United States life savers rescued the imperilled passengers. The engine broke down and the boat was in danger of being swamped.

Troops Marched 200 Miles.

New York, Oct. 1.—After a practice march of 200 miles, the second battalion of the 12th United States infantry, numbering 220 men, reached Governor's Island from Mount Gretna, Pa., the scene of the recent army manoeuvres.

A Combine Without a Following.

Not a few of the politicians in the interior of the state were induced to co-operate with the Lincoln party in the belief that the Van Valkenburg combination in Philadelphia was going to build up a political organization with the patronage of the Weaver administration.

With Weaver and the great army of Philadelphia officeholders cut loose from the Wanamaker-Van Valkenburg-Gordon interests, the latter have little left but the newspapers, with which they have for years been fighting Republican candidates.

There is evidence on every hand that former City Party men and former Lincolnites are going to support Edwin S. Stuart and all of his colleagues on the Republican ticket.

The Fall Hats.

Both very large and very small hats will be worn this fall and winter. The favorite trimming will be ostrich plumes. Among the novelty ostrich feathers is the long wavy ostrich plumes with a drooping shaded tip. Then there is the ostrich plume having one side in a curled boa effect, while the other side is uncurled. Ostrich pompons are also fashionable, and many paradise feathers, ospreys, and stiff and sweeping aigrettes will be used. For very smart tailored hats large wings, tinted in every imaginable hue will be fashionable, laid flat on the brim of the hat, or spread out over the sides and the crown. French quills, marabou and pheasants' breasts are all among the favorite trimmings.

The fashionable millinery colors are bronze brown, and also cinnamon brown, a new soft peacock blue, Empire and pistache green, terra-cotta, and all the tones of red, such as cherry, ruby and claret. The hat to match the gown in color is the most fashionable hat of the season, with the exception of the all black hat, which is the style leader for all occasions.

Ribbons will be much used on the autumn hats. The exquisitely shaded pompadour ribbons will be fashionable, and taffeta and soft satine in plain colorings. Dark shades will be used in preference to the very bright colors. In selecting the ribbon to trim a hat use one or two tones lighter than the color of the hat. Velvet ribbon in all widths and in all colors will be extensively used for small bows and rosettes for bandeau trimmings.

The French hats show many flowers charmingly combined with tulle, velvet and ostrich. Many of the small hats suitable for evening wear consist of little roses with tiny buds and foliage artistically worked in among a ruching of tulle and lace. An aigrette may be the finishing touch at the side. Forget me-nots in velvet shading from a light blue to a pale lavender are used in forming wreaths for trimming, with knots of velvet ribbon around the crown for small round hats.

Fruit continues in vogue for hats trimmings. Cherries in many shades of red and green are liked and grapes are particularly fashionable. Colored grapes are now used more than black. Many of the autumn hats show the draped crown.—Madame Collinaux in Woman's Home Companion for October.

She could Satisfy Them Anyway.

It was Arbor Day, and an entertainment in honor of it was being given in the little country school at Durham. When the program was half over the youthful faces of the scholars shone with agreeable anticipation, for the very next number was to be a vocal solo by Miss Willet, a spinster of the town, who, on many previous occasions had delighted the school with her singing.

There followed an impatient pause. Finally the teacher made this announcement:

"I am very sorry to say, children, that Miss Willett has been taken with a rather sudden hoarseness and will be unable to sing. She is willing, however, to recite a poem, instead, if you wish it. Do you?"

Disappointment flew into each little one's face at this change; and for a moment no one spoke. Then, several boyish heads in the rear of the room became grouped as if in earnest conversation. Suddenly they parted, and Johnnie Marvin, a freckled-faced, deep-voiced scholar stood up.

"Teacher," he declared, "if Miss Willet don't mind we'd rather have her git up an' try to make a noise she kin make her funny faces, anyway, while the pianer plays the tune!"—Woman's Home Companion for October.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Be a Gentleman.

Every young man should be a gentleman or try to be one. It is just as easy as being a rowdy and pays much better. There is nothing smart in being a swaggering "tough" or in patronizing the fast set. The young fellow you see who are affecting drink, the lewd and annoying, are not only making nuisances of themselves, but are destined some day to fill poor houses and jails. They are the ones who have no homes, no friends, no money, the ones that policemen tell to move on. If you play ball be a gentleman. The crowd will applaud you a whole lot more if you make a good play and guy you less when you make an error. The gentleman has friends everywhere; the rowdy none. The rowdy and tough comes to a premature old age of want and privation; the gentleman lives long and walks in green pastures with friends to help him over the rough spots. Be a gentleman, because there is money in it. Be a gentleman, because it will pay you dividends when about everything else is below par. Be a gentleman, and in the final wind-up it will bring flowers to your bier and eulogies to your memory.

The Use of Salt.

If any kind of vegetable has become too salt, dust in a little coarse brown sugar and the dish will again become palatable. Brown sugar is the antidote for salt.

Do you want to rush the contents in the inner vessel of your double boiler? Add some salt to the water underneath half a tea cup to two quarts of water. Boiling salty water generates quickly a strong heat. Salt again can be used to great advantage if the white of eggs will not froth easily. Just dust in a dash.

"Yes," acknowledged the well dressed man; "I have a very good income, but do not feel able to keep an automobile."

"But I am sure I could interest you," argued the dealer. "A man who has the money you are said to have surely ought to afford a good touring machine."

"No; I'd lose too much on the repairs. You see, my income arises from a couple of auto repair-shops I was lucky enough to start a year ago."

THE CHURCH ON EMERY

At the Erie conference of the Methodist Episcopal Church, which closed its annual meeting last week at Meadville, the following was adopted as an amendment to the report on temperance:

Resolved, That we denounce any party or man who places brewery, church and school in the same category.

In a letter to Editor Likens, of Uniontown, some weeks ago Lewis Emery, Democratic nominee for Governor, wrote:

However, had I been at home I would not have withheld my donation from that brewery, no more than I would from the churches, schools and hospitals * * * I should have been derelict if I had not come forward and done my part.

The Erie conference represents one of the largest church memberships in Northwestern Pennsylvania, embracing an influential portion of the population. It will be noticed that the conference was careful to avoid partisanship and refrained from mention of Mr. Emery, preferring to confine its record to an expression upon the general proposition in a dignified way; but the meaning is plain.

In this connection it is proper to direct attention to Mr. Emery's recent diversion at Erie and Clarion, where he urged women to take interest in politics. In the line of his plan to appeal to every possible element of discontent with existing conditions, he has put himself on record in favor of woman suffrage, and he wants the women of the State to help him out. If there are any women who feel disposed to join in his campaign it is to be hoped that they will not overlook his assertion that the brewery is on an equal plane with the church, the school and the hospital. Outside the home the foremost fields of endeavor, to which women devote unselfish labors and for which they make many sacrifices, are the churches, schools and hospitals. Women are the very life-blood of the church, and without them our hospitals would soon close down. What do they think of the theory of Mr. Emery that they should devote the same high service and the same heroic energy to the brewery?—[Pittsburg Gazette.]

EMERY AND LABOR

Homer L. Castle Reviews Legislative Record of His Opponent For Governorship.

NOT A FRIEND OF WORKINGMEN

Sensational Disclosures of Opposition to or Neglect to Vote Upon Bills For Wage Earners

Homer L. Castle, who has been making a tour of the coal regions, has been paying particular attention to the labor record of Lewis Emery, Jr., the Democratic candidate for governor, while he served as a member of the general assembly at Harrisburg.

Mr. Castle points out that Mr. Emery occupied most of his time in pressing for legislation which would advance his own interests in the oil fields, he being an independent oil operator, and that labor got very shabby treatment from him when the various bills in the interest of workingmen were before the senate.

Here is what Mr. Castle said:

"When a member of the house of representatives in 1879, Lewis Emery, Jr., opposed a bill for hospitals for the injured and indigent miners, he opposed the passage of a law giving to the laboring men their wages in money, he dodged several bills for the comfort of the injured, the inspection of mines and the limiting of the hours of labor.

"He was a member of the senate for the session of 1881. Four bills came before that session that were of particular interest and importance to the laboring people, especially of the anthracite coal region, in their struggle to better their condition and carry on their unequal warfare against capital. First, senate bill No. 168, bill to provide for the health and safety of persons employed in the coal mines. Second, senate bill 416, entitled, 'An act making an appropriation for a hospital for injured persons in the anthracite coal regions. Third, senate bill 58, an act known as 'The mechanics' lien act,' to secure to laborers their wages. Fourth, house bill 157, entitled, 'An act for the better protection of the wages of the servants, laborers and mechanics.'

As a Dodger.

"When each of these bills was before the senate, Mr. Emery was very conveniently absent and dodged the vote on them. I argue from this that when his services were needed to assist the laboring men as against the corporations he either voted squarely against the laboring men or else he declined to vote, throwing the benefit of his influence in favor of corporations. Such a man can not be trusted to either enforce existing laws or recommend new laws against any corporation in which he might have an interest.

"I want to take up in detail Mr. Emery's acts as a member of the senate of 1883 and 1885. Senate bill 390. This was an act requiring the corporations operating bituminous mines to make better provisions for the safety and comfort of the miners. With Mr. Emery's usual care for the interest of the corporations he dodged a vote.

"The other bill to which I want to call attention was senate bill 328, entitled, 'A supplement to an act entitled An act to provide for the health and safety of persons employed in coal mines, and providing for the furnishing of props and timbers to the miners in the mines. Mr. Emery was again absent from his place in the senate and failed to record his vote in favor of the interests and life of the workingmen.

And Where Was Emery?

"In the sessions of 1885 there were two noteworthy bills.

"In the borough and township of Plymouth, in Luzerne county, during the year of 1885, there broke out a fever scourge which was very disastrous to that community, and there was a bill proposed known as senate bill 327 and house bill 699, entitled, An act making an appropriation for a temporary hospital and other relief for the destitute sick in the borough and township of Plymouth, in the county of Luzerne.

"Again Mr. Emery, who is ever ready to pay money to supply a brewery to a community in which he is interested, was not interested enough in the life and health of these suffering people in Luzerne county to be present and record his vote.

"Senate bill 238 of the same session was a bill to provide for the establishment and the maintenance of a home for disabled and indigent soldiers and sailors of Pennsylvania. The vote on this bill is found on page 1946 of the Legislative Record of the session of 1885, and so little cared this man, who, when the war was on, contented himself to stay at home and make money rather than to go to the rescue of his nation, and so little was he interested in the soldiers and sailors of this state, that he again absented himself from his place in the legislative halls.

"Let us finish Mr. Emery's legislative record by taking up his conduct as a member of the senate of 1887.

Senate bill 384, house bill 66, a supplement to an act relating to the lien of mechanics and others on buildings. This was proposed by the laboring interest for the better protection of their wages. The vote on this bill will be found on page 2123 of the Legislative Record of the session of 1887. Mr. Emery, as usual, is absent. Senate bill 422, house bill 242, an act making appropriations for the state hospital for injured persons in the anthracite coal regions of Pennsylvania. The vote on this bill is to be found on page 2580 of the Legislative Records of the session of 1887, and still Mr. Emery was absent. Senate bill 421, to provide for the erection of a state hospital for injured persons, at or near Hazleton in the county of Luzerne, to be called the State hospital for injured persons of the middle coal fields. The vote on this bill is to be found on page 2850 of the Legislative Records of the session of 1887, and still Mr. Emery was absent.

SHIP OFFICERS STRIKE

Demand Higher Pay and May Tie-Up Baltimore Shipping.

Baltimore, Md., Oct. 2.—The fight of the licensed officers of the steamboats of the Baltimore, Chesapeake & Atlantic and the Maryland, Delaware & Virginia Railway companies for higher pay is fairly on, and the men express themselves as satisfied with the result of the first day's fighting, which would seem to be in the nature of a stand-off. Four boats scheduled to sail did so, while four others that were to have sailed remained tied to their wharves. The officials of the companies express themselves confident that they will be able to cope successfully with the situation by putting the winter schedules into effect somewhat earlier than usual.

The men demand an increase in pay. Captains have been getting $75 to $100 a month, first mates $40 to $60 and second mates $30 to $40, which they claim is altogether inadequate, considering the services rendered and the responsibilities assumed. The advances asked range about 25 per cent. The commander of a steamer on any of the routes involved must hold a government license, which can only be obtained after a certain term of service and the passing of a difficult examination as to routes, distances, etc.

Condition of Pennsylvania Treasury.

Harrisburg, Pa., Oct. 2.—The September statement of the state treasury shows a balance of $9,503,494.56 in the general fund and $2,594,321.23 in the sinking fund at the close of the month.

STUART WEARS WELL

Republican Nominee For Governor Squarely On Reform Platform.

POPULAR LEGISLATION URGED

Pledges Made to the Voters Will Be Kept When He Takes the Governor's Chair.

[Special Correspondence.]

Philadelphia, October 2.

The tour of Edwin S. Stuart, the Republican nominee for governor, and his colleagues on the state ticket continues to be made up of a series of ovations from the masses of the public. Mr. Stuart has developed into a wonderfully successful campaigner. He makes a splendid impression wherever he goes, and the voters are impressed with his honesty and sincerity of purpose. He is standing squarely upon the Republican platform and has convinced all who have heard him that he intends to carry out every pledge made by this party.

In a recent speech he, among other things, said:

"Illustrious as have been the achievements of the Republican party in the past, it can triumph in the present struggle only by justly and fully commanding the consideration and proper approval of the people, and I firmly believe it is the honest and inexorable purpose of the Republican party at the next session of the legislature to enact laws which are recommended and to which it is pledged in its platform.

"The Republican party of Pennsylvania is pledged to confer upon trolley companies the right to carry freight in order that the product of the farm may reach the market at the least possible cost and convenience to the vast number of our people engaged in the production thereof. It is opposed to the ownership of coal mines and of the mining of coal by railways and transportation companies; and in its platform is a plank demanding the enactment of such legislation as may be necessary to make effective a constitutional provision upon that subject.

"It demands the passage by the next legislature of such laws as will secure a rate not exceeding two cents a mile upon all the railroads within the commonwealth, and such further legislation as will require the sale of mileage books at a rate not exceeding two cents a mile without the requirement of a $10 deposit or any other obnoxious requirement.

Protecting State's Water Power.

"It also declares a legislative limit shall be placed upon the duration of all franchises granted by the legislature, and the right of the people to take both the franchise and the works, under just terms, carefully reserved. It declares in favor of such legislation as will prevent the water and water power of the state from passing out of the control of the public authorities. It declares in favor of a state commission to exercise relations to transportation within the commonwealth similar to those of the interstate commerce commission for the regulation of interstate transportation. It demands the investigation of the facts as to the abandonment and construction of competitive railroads by existing corporations, and the enactment of such legislation as will enable the state to retake the franchises so abandoned.

State Chairman Andrews has arranged the following itinerary for the gubernatorial party for the next two weeks:

October 2 (Tuesday)—Greenville, Mercer county, evening.

October 3 (Wednesday)—Sharon, Mercer county, afternoon.

October 3 (Wednesday)—New Castle, Lawrence county, evening.

October 4 (Thursday)—Oil City, Venango county, afternoon.

JEWEL THIEVES ARRESTED

Negro Couple With Rich Booty Captured at Roanoke, Va.

Roanoke, Va., Oct. 2.—A police officer arrested Marshall Parker, a negro and his mulatto wife, who goes by the name of Lillie Russell Brown Butler Parker, at Pulaski, Va. The couple had jewelry on their person to the value of $10,800, and Parker had $400 in money. They are wanted at Philadelphia, where it is alleged the woman robbed the home of Mrs. Mary Tatem at 2052 North Park avenue, that city, on September 18 last. A Philadelphia detective arrived and took charge of the prisoners and jewelry, but later the local authorities, believing there was a reward for the stolen valuables again took them in charge. The negroes will demand requisition papers.

SUFFERED FOR YEARS WITH A COMPLICATION OF PELVIC DISEASES.

Robust Women Who Owe Their Restored Health and Usefulness to Pe-ru-na.

Read the Letters of Gratitude From Women Who Have Been Benefited By Dr. Hartman's Advice.

A Multitude of Such Letters Are Received Every Year.

A TYPICAL LETTER.

Mrs. Carry Peduzzi, Linstad, N. Dak., writes:

"I take pleasure in telling you that through your wonderful medicine I am entirely cured of catarrh of the stomach and pelvic organs.

"I was so rundown on account of my illness that I could no longer attend to my housework. I could not eat or sleep and had terrible pain in my back.

"I took Peruna and in five months I was well. I have not felt so well for a long time.

"I wish everyone who is sick would take Peruna and thus recover their health.

"I have Peruna in the house continually. I thank you for all that you have done for me."

A Medicine of Merit.

Miss Katie A. Washer, 1706 Prentice street, Louisville, Ky., writes:

"As my experience has been so favorable from the use of Peruna, I unhesitatingly state that I believe that it is a medicine of unquestioned merit for all the ills that we women suffer from.

"I find that it strengthens and infuses new life into the system, and whenever I feel rundown or over-tired, a few doses of Peruna will strengthen me again."

Found a Friend in Need—Pe-ru-na.

Mrs. Florence Aitkens, 1104 Front St., Toledo, Ohio, writes:

"Peruna cured me of catarrh of the uterus. I took about four bottles when I noticed an improvement and five bottles cured me.

"I do not know what I would have been like to-day had I not obtained Peruna, for I was in a terrible state.

"I had pains all over and was cross and irritable. I was losing hope of ever being well again.

"I am to-day a well woman after suffering for nine months. I cannot tell you how happy I feel, but you will know.

"Peruna is the best medicine on earth.

"My husband is now taking it and I will always keep Peruna in my house.

"Peruna is the best friend I ever had. It cured me."

America is the Land of Nervous Women.

The majority of women are nervous because they suffer from some form of pelvic catarrh.

The greatest obstacle in the way of recovery is that they do not understand that catarrh is the main source of their illness.

Women who are in doubt as to their ailments should write to Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio, who will give their letters prompt attention, without charge.

Miss Anna McGinn, 161 Plain street, Providence, R. I., writes:

"I wish to let you know of the good your medicine has done for me.

"I had what the doctors called heart trouble. I had been doctoring for a year before I tried your Peruna.

"I got a bottle of your Peruna and after a week's use of it I began to feel better. I could not eat, sleep, or work, but I have at last found that the medicine that will cure me is Peruna."

CORRESPONDENCE.

Millheim.

Andrew J. Harter a former resident of this town now of Rockford, Ill., is on a short visit in this section. He came principally to visit his mother at Aaronsburg who is 92 years old. He is a brother of Mrs. S. M. Campbell and T. H. Harter of the Gazette. He says that Antis Ruhl who is well known here is one of Rockford's most successfull business men and has amassed a large fortune. Mr. Ruhl's friends here are glad of his success as he is a native of this town.

Isaac A. Shauver of the National Hotel was in Milroy on business last week.

The Jew stores in this town were closed two days last week on account of a holiday. Yom Klpper commences on the 29th. Mr. D. I. Neiman and family will observe the same and will visit Lock Haven.

The knitting factory closed down last Thursday to give the employees an opportunity to attend the Grange Picnic at Centre Hall.

William Kramer is having his brick residence painted and lined off, which will add materially to its outside appearance.

Miss Della Reighard of Shamokin, a trained nurse is visiting her sister Mr. E. W. Mauck on Penn street.

D. L. Zerby and wife were visitors to Berwick.

Mrs. Henry Miller returned last Saturday from her visit to Columbia and Northumberland counties.

Ezra Auman and daughter Mabel who attended the Miller's convention at Baltimore last week returned home on last Friday.

William Groff, the druggist who was married last week in Lancaster county returned last Friday evening and was royally sernaded by the calathumpians.

Will Throssell who has been employed by the Harter Brothers in West Virginia this summer returned home to his family one day last week.

Stanley Somerfield and Wallace Rhymstine of Pittsburg was in town a few days last week.

John Reighard of Mifflinburg was in town last week on business.

John Alter of Chicago is visiting his mother on Penn street.

Charles Aurand, wife, and son of Milroy are visiting his sister Mrs. Jerome Sieglemyer on Penn street for a few days.

Miss Lide Musser who is teaching school near Centre Hill had a vacation during the Grange Picnic and spent part of it at the home of her parents.

Julius Moeschlin the beer brewer of Sunbury was in town on Tuesday.

N. B. Spangler of Bellefonte transacted legal business on Tuesday.

Moshannon.

Mrs. Alex Black and son James, of Clearfield, visited at her former home here during the week.

H. S. Cramer, the hustling cutlery agent, of this city, transacted business in Cato, recently.

Mr. Collins of Williamsport, was a business visitor to our town lately.

The new steam threshing machine, operated by Thos. Gleason, Jr., is steadily making "its rounds" and the puff of its engine and the "toot" of its whistle is frequently heard in various directions. Success to the farmers and the threshers.

James A. Lucas, is again home with his parents and will remain during the winter.

And still the apples continue to "roll" into the press which is in operation here on Tuesday and Wednesday of each week. Surely vinegar and apple-butter will be at a price to suit the pocket books of us all.

The reception given at H. Z. Bierly's, on Wednesday evening, in honor of their son Reed and his bride, after their return from a delightful tour to New York, Buffalo, Niagara Falls, Lock Haven and other places of interest, was a grand affair. Many near friends of the nuptial party highly enjoyed the sumptuous supper and an evening so pleasantly spent. While the usual "calithumpians" performed their part on the outside, in a manner peculiar to that class of entertainers. Congratulations to them and a happy union through life, is the wish of all.

Hunting season is here again. Now good officers (?) keep your eyes open, perhaps you can make a haul, or at least make some poor b——r sweat.

Our usual quiet little village where "lounging and table-finishing" is the chief occupation under the careless management of the firm of "Dolittle & Takitezy" is somewhat agitated at the present time by the announcement that a five foot vein of good clean coal has been discovered at a short distance from here and in all probability will be operated soon. This is encouraging and the prospect is good that our town may yet become of wealth and prominence in the commercial world. This long looked for prosperity, so gladly welcomed by all, is not a mere matter of conjecture of idle dream of an idle fellow, but facts will bear the writer out in the about statement. So much the more is this fact assured if H. C. Quigly, gets elected to the senate. As to the latter statement, we have no misgivings, since he is on the winning side.

Fowler.

Autumn days are here.

Miss Hannah Fink is spending a few days with her brother in Altoona.

Miss Mary Young Sundayed with her grand parents at Milesburg.

Mrs. Harry Sauers visited at her home in Aaronsburg a few days last week.

The Batallion has been drilling every day getting in shape for the dedication of the Chapel Building at Harrisburg Thursday. There will be a good turn out from State.

Wants a Homely Girl for a Wife.

There is no intention on the part of the Press to start a matrimonial bureau, says the Philadelphia Press, but the letter printed below may possibly be of especial interest to a very small number of Pennsylvania girls and of general interest to the great majority, hence it is printed just as it was written:

"Shamokin, September 29.

"Editor of the Press:—Will you please put in your paper that I want a wife who is as homely as I can get. Tell them that I won't have a girl who is good looking and thinks a lot of herself. What I want is the homeliest I can get. I don't mean a girl who has had her face hurt by accident, but I mean a girl who was born ugly and grew up that way.

"Will you please, tell me where I can get a girl like that to marry me. I am a traveling man and I want to settle down in my own business. I am able to buy my own house and furnish it and have enough left to keep us both in good style and make more money, too. Please tell her I don't ask her to have any money, as I have plenty for us both and I only want her to be homely and pleasant.

"I was courting a girl once who had what people called good looks and after I bought her a ring and gave her money for a wedding dress she ran away with a boarder in Mahanoy City. Now I want to marry the homeliest I can get. I don't want to have a lot of men praising my wife's face and making her flighty.

"Will you please tell them this in your paper and ask some good homely girl who wants a good husband to write and oblige."

The Press doesn't know any more about the writer of this letter than the young women who will read the communication, hence does not vouch for him in any way. He signed his name and it indicates that he is of German descent. But whether he is tall or short, slim or stout, light or dark, good or bad, rich or poor, the Press is without knowledge. Seems to be in earnest though.

The worries of a weak and sick mother are only begin with the birth of her child. By day her work is constantly interrupted and at night her rest is broken by the wailing of the peevish puny infant. Dr. Pierce's Favorite Prescription makes weak woman strong and sick woman well. It lightens all the burdens of maternity giving to mothers strength and vigor, which they impart to their children. In over thirty years of practice Dr. Pierce and his associate staff of nearly a score of physicians have treated and cured more than half a million suffering woman. Sick woman are invited to consult Dr. Pierce by letter free of charge. All correspondence is strictly private. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

A Trunk Story.

The tourist left the train at every station and went ahead to the baggage-car to ask if his trunk was safe.

"Are you quite sure," he asked the baggage officer for the sixth time, "that my trunk is safe?"

"Begorra, I wish the good Lord had made ye an elephant instead of an ass!" as the exasperated reply; "and then you would always have your trunk in front of you."

TO PROPAGATE QUAIL.

Secretary Kalbfus has Invented a Trap in Which the Birds can be Safely Kept.

Propagation of quail in Pennsylvania is being urged by the State Game Commission, and a quail trap and a box in which the birds may be kept has been invented by Secretary Kalbfus, of the commission. For the purpose of arousing public interest in quail propagation the commission is about to issue a bulletin on the subject.

In Kalbfus' device the idea is to trap the quail in a net by having a trail of food lead up to the trap. Then the birds may be removed and kept in the cote. It is the intention that the device be used during the cold weather. The birds are to be trapped in the autumn and kept in the box until spring, when they may be turned loose.

Dr. Kalbfus believes rapid propagation of quail may be materially assisted by interested persons thus caring for conveys of the birds. The box in which they are kept is divided into compartments and equipped with doors in order that the birds may be locked in one section while the others are being cleaned. The top of the box is of canvas to prevent the birds injuring themselves by striking their heads against a hard object.

This type of box was adopted by Dr. Kalbfus for use when hundreds of quail for propagating purposes were shipped into this State several months ago. Before this style of box was adopted many birds died while on their way to the north, but after this kind was put into use, none died. The box is arranged with troughs so that food and drink may be easily supplied from the outside with opening the cage.

Start a Balky Horse.

For the benefit of those who have been caused a great deal of anxiety by a balky horse, lost trains as well as tempers, and even sometimes ruined the horse," says a correspondent in the Horseshoers' Journal. "I will give your readers a remedy which, no matter how bad he is, will start such a horse ninety-nine times out of a hundred. Of course, it may fail one time in a hundred. When a horse balks, no matter how badly he sulks or how ugly he is, do not beat him; don't throw sand in his ears; don't use a rope on his forelegs or even burn straw under him. Quietly go and pat him on the head a moment; take a hammer or even pick up a stone in the street; tell the driver to sit still, take his lines, hold them quietly, while you lift up either front foot; give each nail a light tap and a good smart tap on the frog; drop the foot quickly and then chirp to him to go. In ninety-nine cases out of a hundred the horse will go right on about his business, but the driver must keep his lines taut and not pull or jerk him back. The secret of this little trick is simply diversion. I am a firm believer that with kindness and proper treatment a horse can be driven with a string.

The Ears of Insects.

Simply because a bee has no ears on the sides of its head it is no sign whatever that it is wholly without some sort of an auditory nerve. This is proved by the fact that grasshoppers, crickets, locusts and flies all have their ears situated in queer places—under the wings, on the middle of the body and even on the sides of their legs. The common house fly does its hearing by means of some little rows of corpuscles which are situated on knob-bed threads which occupy the place which are taken up by the hind wings of other species of insects. The garden slug or shelless snail has its organs of hearing situated on each side of its neck, and the common grasshopper has them on each of its broad flat thigh. In some of the smaller insects they are at the bases of the wings and in others on the bottom of the feet.

BALLOON RACE FOR CUP

Sixteen Aeronaus, Representing Countries, Compete For Prize.

WILL BE ENDURANCE CONTEST

Over a Million People Cheered Start, Which Was Preceded By Flight of Hundreds of Balloonettes and By Loosing of 5000 Homing Pigeons.

Paris, Oct. 1.—Sixteen balloons, averaging over 2000 cubic metres capacity each and representing seven countries, sailed away from the Tuilleries Gardens, in the heart of Paris, in the first competition for the Gordon Bennett cup for international aeronauts.

The contest was primarily a long distance race. The date had been carefully selected when the prevailing winds are from the west in the hope of giving the aeronauts an opportunity to break the record of Count de la Vaulx, made in 1900, when his balloon landed in Korostychoff, Russia, having covered a distance of 1185 miles in 35 hours and 40 minutes. But the wind was light, hardly more than eight miles an hour, and from the east, thus making the shores of the Atlantic the limit of distance and robbing the occasion of its importance as a test of long distance aerial traveling.

On this account the race was a keen disappointment to the aeronauts, who had come from every corner of Europe. The rules of the contest, however, provided that in case of unfavorable atmospheric conditions the judges could, at their option, make the test one of endurance to remain in the air.

Nevertheless, as a spectacle, the event was a brilliant success. It is calculated that over 1,000,000 people saw the balloons as they sailed away. A quarter of a million had gathered inside the gardens, while the Place de la Concorde, the bridges over the Seine, the embankments of the river, housetops and every other point of vantage for miles around were black with people. The terraces in the gardens had been reserved for invited guests. They were occupied by prominent aeronauts of Europe, as well as many distinguished visitors from various countries, the foreign diplomats there, and the French ministers of war and marine. The foreign military attaches are especially interested in the event, it being regarded as a great test of aeronautics, and much more than a mere sporting contest.

The start was preceded by the flight of hundreds of trial balloonettes and the loosing of 5000 homing pigeons.

Each contestant is an experienced aerial pilot, but contrary to expectations, Santos Dumont, one of the two representatives of the Aero Club of America, proved to be the only one to inaugurate a novelty. For the purpose of keeping afloat as long as possible he had equipped his car with a six horse power vertical propeller with the object of lifting and lowering his balloon without discharging any of its precious ballast. The enthusiastic cheers of the multitude which greeted the ascent of Santos Dumont showed that he was a favorite and quite as popular as his French rivals. Major Hersey, the companion to Walter Wellman in the Wellman-Chicago Record-Herald North Pole expedition, acted as assistant to Frank P. Lahm, lieutenant in the sixth United States cavalry, the other American competitor.

Each balloon carried a sealed recording barometer to work for 24 hours, and a number of envelopes to be blown out every two hours in order to mark the individual trail. Food for three days was also on board each car.

Fought 20-Round Draw.

Kansas City, Oct. 1.—Joe Walcott, of Boston, and Billy Rhodes, of this city, fought a 20-round draw on a sand island in the Missouri river, 12 miles below Kansas City. The fighters and spectators went to the island by a steamer, and the ring was pitched in the sand, 2000 men standing around the ropes to see the contest. The island being uninhabited and unassigned to either of the neighboring counties, neither sheriff concerned himself about the fight. Walcott was the aggressor from the start, Rhodes contenting himself with cleverly blocking the negro, who was unable to land on Rhodes at any time. The fight was announced to be for the world's welter-weight championship, which Walcott claims.

New Position For Judge Buffington.

Oyster Bay, Sept. 22.—Senator Knox, of Pennsylvania, on leaving Sagamore Hill, announced that President Roosevelt has decided to appoint Judge Joseph Buffington as judge of the Third United States circuit, which includes the states of Pennsylvania, Delaware and New Jersey. Judge Buffington is now United States district judge of the western district of Pennsylvania. He will be succeeded in that place by Judge Nathaniel Ewing, of Fayette county.

Prisoners Seized Warden and Escaped.

Oakland, Md., Sept. 22.—When Warden White opened the inner cage of the new jail here to give the prisoners their supper he was seized by several of the prisoners, his keys were taken from him and he was locked in the cage. The prisoners then made their way out, fighting and escaped.

FATAL CRASH ON PENNSY

Three Killed and Many Injured in Collision Near Philadelphia.

Philadelphia, Oct. 1.—Speeding 70 miles an hour, a New York and Philadelphia express, west-bound, on the Pennsylvania railroad, crashed into a Long Branch express, between Croyden and Eddington, killing three women passengers and more or less seriously injuring over a score of others, some of whom were badly maimed. The collision, from surface indications, would appear to have been due to the absolute disregard of signals by the engineer of the New York flyer.

The terrific impact with which the New York express plowed into the other train led to the off-hand impression that a score of deaths had resulted, but prompt rescue work revealed that only three lives had been sacrificed outright.

The killed—Mrs. W. H. Connall, Trenton, N. J.; Miss Mary O'Mallay, Rahway, N. J.; Mary Cronin, Philadelphia.

The injured—J. H. Caswell, Washington, D. C.; Mary Hale, Atlantic City, N. J.; Rachael Taylor, Red Bank, N. J.; Mrs. Archie Maddock, Miss Maddock, both of Trenton; Miss Mary Brown, Rahway; Mrs. M. R. Campbell, Baltimore; J. Mariella, Trenton; Mrs. J. Weatheroy, Trenton; Miss N. Jewett, Trenton; Mrs. T. Hicks, Bellaire Mountain, Pa.; Lily Spike, Philadelphia; Louise Robinson, colored, Washington, D. C.; Mrs. C. Cuhlman, Philadelphia; Pisa or Rosy J. Lowary, Downingtown, Pa.; E. T. Bush, Stockton, N. J.; Margaret Kuratz, New Britain, Pa.; Mrs. R. H. Darrah, Kartsville, Pa.; Thomas J. Breslin, Freehold, N. J.; J. T. Glasgow, Asbury Park, N. J.; D. C. Hurst, conductor; George Gordon, cook; A. CHAMBERLAIN'S END NEAR

British Leader's Death Question of But Short Time.

London, Oct. 1.—Unable to walk, speak or see, Joseph Chamberlain's condition is pitiable. Although the family will admit only that he is suffering from gout, the once "strong man of England"—strong in physique as he was in mentality—lies a helpless and hopeless paralytic, awaiting the end which his 71 years of strenuous, unhygienic life must have made a question of but a short time.

The severe stroke of paralysis came three months ago, and as night is dropping its curtain around the Unionist leader his American wife is giving him the comfort of her constant companionship. She was Miss Mary Endicott, of Salem, descendant of the first governor of Massachusetts. Their love has touched the hearts of all England, and for the wife the greatest sympathy is manifested.

TWO KILLED IN RUNAWAY

Dr. William T. Skinner and Daughter Meet Death In Glasgow, Del.

Wilmington, Del., Oct. 1.—Dr. William T. Skinner, of Glasgow, near here, one of the best-known physicians in the state, and his daughter, Rhea, were killed in a runaway accident near their home. Dr. Skinner had just left the railroad station in a carriage with his daughter when the horse became frightened by the locomotive of a nearby train and ran away. The carriage was upset and Dr. Skinner sustained a fracture of the skull and died in a few minutes. The daughter was also injured about the head and died a short time after her father.

Lake Steamer Foundered In Storm.

Port Huron, Mich., Oct. 1.—An unknown steamer foundered with its entire crew in Lake Huron off Sanilac during the northwest gale. The tragedy was witnessed by the crew of the passenger steamer City of Mackinaw, which arrived at Harbor Beach. The Mackinaw was some distance off when the unknown steamer foundered, and cruised about in the vicinity for some time in the hope of rescuing some of the crew, but in the darkness and storm no trace of them could be found, nor any clew to the identity of the vessel.

Why He Was Cool.

Average Man—There's a run on another bank. Just look at those depositors crowding in. The fools! That's what makes money tight. The whole crowd should be carried off to a lunatic asylum. Friend—You are allowing your deposit to remain, I presume? Average Man—Um—er—I haven't any funds in that bank.

Will Get Carnegie Hero Medals.

Appleton, Wis., Sept. 29.—Miss Elsie Plantz, daughter of President Samuel Plantz, of Lawrence University, and Irwin W. Church, of Menominee Falls, a graduate of the last class of Lawrence University, will receive Carnegie hero medals because of their work during the winter of 1904-05 in saving the lives of three Lawrence girls who had broken through the ice in the Fox river, and were well nigh exhausted when pulled from the water.

Suits Against Many Railroads.

Washington, D. C., Oct. 1.—Attorney General Moody has directed that suits be brought against a large number of railroad companies to recover penalties for violation of the safety appliance law through failure to keep their equipment in proper condition. The largest number of violations attributed to any road is 51, against the Delaware & Hudson company. The total number of violations is 181.

STORM'S AWFUL HAVOC

Devastation and Ruin Are Everywhere at Pensacola, Fla.

DEATH LIST 26; 3000 HOMELESS

Five United States Gunboats and Several Naval Tugs Are Complete Wrecks and Other Ships Were Driven Half Mile Inshore.

Pensacola, Fla., Oct. 1.—The loss of life and the damage resulting from the hurricane which struck this city Thursday morning is something terrible. The list of dead has grown to 26, and it is known that many more have been lost and others injured, while 3000 are homeless. For two days rescuing parties have been working to bring conditions to some degree of order, but their efforts have not been successful to any great extent, and many bodies are still underneath the wreckage. The property loss is estimated at $5,000,000.

For 10 miles east and west of the city are strewn the wrecks of homes and vessels of all classes. Commencing at Fort McRae, on a point overlooking the Gulf and continuing to Escambia bridge, east of the city, there is nothing but devastation, ruin and desolation.

On Santa Rosa Island, also on the Gulf, is Fort Pickens, where over 100 men were stationed. There was no loss of life, but great destruction to property there. Fort Barrancas also has been badly damaged.

The navy yard suffered probably to the extent of $1,000,000. Many of the new buildings have been damaged or destroyed completely, the floating dock crushed against a stone one, the latter damaged, and the gunboats Vixen, Isle de Luzon, Gloucester, Machias and Wasp, as well as the naval tugs Wauban and Accomac and a number of smaller tugs and launches rendered complete wrecks. Some of these vessels have been driven in shore for more than 200 yards. The homes of the workmen at Warrington and Woolsey were demolished and three lives lost.

Across in the city here the scene beggars description, and it will be fully three months before the vessels can be dug from their positions. Of the 22 ships and barks of foreign flags anchored in the harbor, only one remains and it is badly damaged. The steamers fared better, but they are damaged. Some ocean ships of 2000 tons are resting in front yards; others have been driven through houses; some have their noses pointed into stores, while others are keeled over on their side in the bay or piled up on the beach. Only four tug boats out of about 20 remain. About 30 fishing schooners or 50 that were moored alongside wharves still remain intact. Some of these are half a mile in shore.

The immense wharves along the water front are literally covered with shipping and freight, the freight of the Louisville & Nashville railroad, the third going down with about 50 cars and an engine. Practically every tin roof has been torn away, stocks of goods damaged and provisions ruined. Unless traffic is resumed there will be still further suffering. Flour cannot be procured, but other necessities are available. Extending for a mile west of the city were the small cottages of fishermen, all close to the beach. These have been wiped out. Three men are known to be dead there. Many daring rescues were recorded among these hardy folk when the water had driven them to roofs.

A terrible story of suffering was brought in from Garsen Point, up the bay. Fifty persons are homeless and starving with no way of reaching any place. The messenger left there Friday morning, and at that time the entire party had been 12 hours without food, cooking their last morsel the night before. They have no clothing or shelter, and if relief does not reach them soon many will perish.

DECREASE IN PENSION ROLL

Number June 30 Was 985,971, a Decrease of 12,470 From Last Year.

Washington, D. C., Oct. 1.—The net decrease in the pension roll of the United States for the fiscal year ending June 30 last amounted to 12,470, the largest decrease ever known in the history of the country. These facts are brought out in the annual report of Commissioner of Pensions Warner, which has just been completed. In the report the commissioner expresses the opinion that there will be a still more marked decrease during the present year.

During the year there were added to the roll 33,569 new pensioners and 1405 restorations and renewals, making a total addition of 34,574. The total number of pensioners on the roll during the year was 1,033,415. The number of pensioners dropped from the roll during the year was 47,444, leaving the number of pensioners June 30, 1906, 985,971.

Death was the principal cause of the decrease of the past year, the number of names dropped on that account being 43,400. Of these 29,208 were those of survivors of the civil war, leaving 666,453 survivors of that war still on the roll. There are still four pensioners on account of the revolutionary war, one a widow and the other three daughters; 660, all widows, on account of the war with Spain, and 11,472 on account of the Mexican war.

HARVEST OF DEATH AT MOBILE

Known Dead Is 79 and May Reach 102—Cleaning Up Debris.

Mobile, Ala., Oct. 1.—The number of casualties in the great storm of last Wednesday is slowly increasing as messages are received from places which have heretofore been inaccessible. The total of the known dead is 79, and a possibility of 102 by the reports that reached Mobile. It is estimated that 23 lives have been lost from the oyster fleet around Cedar Point.

Mobile is rapidly emerging from the confusion caused by the storm. Large gangs of men were kept working all of Sunday in clearing the streets of debris; three of the street car lines have commenced to run for the first time since Wednesday; the confusion at the docks is rapidly being repaired, and business will be at normal action as soon as the railroads are able to run trains.

It is now believed that the loss of the lumber interests alone by the storm will aggregate $10,000,000. Tens of thousands of trees of the finest quality have been blown down. The number of logs that have been carried out to sea or driven into inaccessible swamps is enormous.

SECRETARY ROOT RETURNS

Secretary of State Arrives in Washington From South American Trip.

Washington, Oct. 1.—The United States naval vessel Sylph, with Secretary Root aboard, arrived in Washington Sunday. Accompanying Mr. Root was Mrs. Root and his son and daughter.

The secretary was met at the navy yard wharf upon the arrival there of the Sylph by Assistant Secretaries Adee and Wilson, Mr. Denby, chief clerk, and Mr. Babcock, his private secretary. Mr. Root and his family drove immediately to their home, on 16th street, where Mr. Adee, who has been acting secretary of state in the absence of Mr. Root, and Mr. Bacon called later. He carried with him some papers pertaining to state department matters for the secretary's perusal, and advised him of the status of some of the more important matters pending. Mr. Root declined to give out any interview.

Two Killed by Kerosene Explosion.

Pittsburg, Oct. 1.—Mrs. Frank Sabo and her 1-year-old daughter, Mary, are dead and her husband is in a critical condition as a result of the explosion of a can of kerosene oil at their home, on Rutherglen street. The explosion was caused by pouring the oil on hot coals in the kitchen stove to hurry the fire.

ARMED FORCE LANDED IN CUBA

U. S. Intervention Takes Place When Last Hope For Peace Fails.

TAFT PROVISIONAL GOVERNOR

Was Brought on By Political Leaders Declaring They Would Have Nothing More to Do With Cuban Government When Palma Refused to Withdraw Resignation— Great Mass of People Welcome Intervention.

Havana, Sept. 29.—Uncertainty in the Cuban political situation terminated today (Saturday), when Secretary of War Taft issued a proclamation

Secretary of War Taft.

creating himself provisional military governor of Cuba and 2500 American marines were landed from the United States warships in the harbor. Friday night 25 marines were landed to guard the treasury building. General Rodriguez, commander of the rural guards, is co-operating with Secretary Taft and Mr. Bacon.

As was expected, there has been considerable rabid denunciation of the course pursued by the American commissioners, who, it has been alleged, have acted unfairly toward the government party, but the great mass of the residents of Cuba, Cubans and Spaniards, Americans and all other foreigners welcome intervention as something for which they have longed for throughout the last six weeks of unrest, disorder and ill-feeling.

This action followed President Palma's attitude in refusing to withdraw his resignation and the special session of congress in refusing to take action. Congress appointed a commission to call on President Palma and request him to withdraw his resignation. He firmly refused their request, and said his resignation was absolutely irrevocable.

During the day Secretary Taft heard various kinds of propositions and counter-propositions about available unavailable candidates for the presidency. None of these proposals proved anything like agreeable to all factions, and Secretary Taft, after the exchange of several cablegrams with President Roosevelt, assumed a waiting attitude. Among those who visited the secretary during the recess of congress was Governor Nunez and other Liberal Nationalists. They regretted President Palma persisted in his determination to resign. Zayas came, too, and told a wild story to the effect that Secretary of the Interior Montalvo had 500 soldiers in the arsenal close to the house of representatives, and was prepared to shoot him and other Liberals if they approached the house for Friday night's meeting, claiming that the Liberals were responsible for the present dying condition of the republic.

Spirit of Utter Apathy.

It was in a spirit of utter apathy that the joint session of the senate and house received the resignations of the president, vice president and the members of the cabinet. This attitude was due in a great measure to despair that any action on the part of congress would result in making American intervention less probable. After a brief but confused debate congress decided on the final and forlorn hope of an appeal to the president to reconsider his decision to retire from office. Over the president's rostrum hung the faded and tattered folds of the original lone star flag that was first raised by Carlos Cespedes in the ten years' struggle for independence. It was now a silent witness to the closing scenes of the brief life of the first Cuban republic. The resignations of the members of the cabinet to President Palma were then read Thereupon Zayas arose and entered his solemn protest, declaring that the president had no right to accept the resignations of the cabinet without appointing their successors. Replying, Representative Manduley declared that the president had acted entirely within his rights. The resignation of Mendez Capote, the vice president, was then read without comment. Following this, and amid a profound silence, the resignation of the president of the republic was read. It was as follows:

Palma's Resignation.

"To congress: The condition to which public order has been reduced since the initiation of armed rebellion in the province of Pinar del Rio, and the fact that there is now in operation in this capital an American commission is said to be one of peace, and representing the government of Washington, and that in consequence the executive has practically lost all authority while the rebels continue in arms and in a threatening attitude, and the writer, on the other hand, desiring sincerely and ardently that the country return to its natural state of order and tranquility and as it is absolutely impossible to accept the conditions which the said commission proposes as the only means of terminating the rebellion, I have resolved, considering it to be patriotic and decorous, to present formally to congress, and in irrevocable form, my resignation from the presidency of the republic, to which office I was elected by the citizens and the vote of the electoral college May 16 last. Trusting this will be at once accepted I extend my thanks to both legislative bodies, to whom I offer this testimony of my highest consideration."

Congressman Diego Tamayo declared that congress was face to face with the death of the nation, and that only Palma's continuance at the helm could save the life of the republic. A long argument ensued between Zayas, Manduley and others, during which the representatives and senators paid little heed and read newspapers with marked indifference. Finally Dolz terminated the question of the right of congress to appeal to the president for reconsideration of his resignation by putting the matter to a vote. The result was 47 ayes and 13 noes. On the motion of Manduley the house then took a recess until 9 o'clock in the evening, to permit the Moderates and the Liberal Nationalists to visit Palma.

The latter proceeded forthwith in carriages to the palace, where they were at once received by the president in the old throne room of Spanish days, now the Red Salon.

Palma was much affected at the appearance of practically all his leading allies on such a solemn occasion. He greeted them sorrowfully and then listened intently to Senator Dolz, who spoke as follows:

Appealed to Palma.

"Congress, in an overwhelming majority formed by the Moderate and Liberal National parties, has just agreed that this numerous committee come here to beg you to withdraw the resignation of the presidency which you have just presented. I, as president of the congress, have the honor of delivering the request.

"This is no hour for oratory or tears or words other than spring from the hearts of patriots. This agreement has been reached by the representatives of a true majority of the country, and we beg you to consider our desires. We do not forget all the sorrows and afflictions which you have endured during the past few days, but inasmuch as your retaining the presidency is so necessary to the salvation of the country and its independence, we earnestly beg that you will reconsider your determination."

Palma was deeply moved, and listened with tears in his eyes. His reply however was determined. He said:

Will Make No More Sacrifices.

"I would never have hesitated to make any sacrifice asked for by my country, whose liberty I fought for during 40 years, exposing my life and wrecking my fortune. But you ask me to sacrifice my personal dignity and that of the government of the republic now imperilled by armed forces, without any prospects of a practical result in securing peace and the stability of the nation. If I could see that the sacrifice of my personal and official dignity meant peace and stability and rightful liberty, you could count on my compliance to that extent. But since my authority has been curtailed by armed force, and as I have been notified officially that I am occupying my position by fraud, I beg you not to insist in asking me to withdraw my resignation which has been presented to congress, and which represents my irrevocable resolution."

Senor Dolz broke the ensuing silence by saying that the Moderates would not press the request, and ended the interview by embracing President Palma. The president and several others wept freely, and the delegates in turn grasped President Palma's hand and withdrew.

The night session was called for Friday evening, but only four members were present. Senor Manduley demanded a roll-call to determine whether there was a quorum, saying if there was not he would move that the session adjourn. At 10.30 the lights were extinguished and the small crowd present was invited to move on, this practically terminating the activities of the present government.

United States on War Basis.

Washington, Sept. 29.—Both the war and navy departments are practically on a war basis. In the war department there were many conferences, but few orders of consequence were issued as the army is practically ready for any emergency, and the hiring of transports is the only detail necessary to complete war preparations. The first expedition would probably leave Newport News made up of 5500 troops gathered from posts near the eastern seaboard; and other expeditions from points further south in case the government can arrange for the suspension of troublesome quarantine regulations New Orleans is mentioned as the probable port from which an expedition made up of Texas troops and troops in other Southern states adjacent to Louisiana will be sent. It is the purpose of the general staff to avoid railroad travel wherever possible and send troops from seaports nearest the posts at which they are stationed.

For the Stomach Heart and Kidneys

Dr. Shoop's Restorative is a Cause Cure—not a Symptom Cure.

It is a common mistake to take artificial digesters for stomach troubles—or heart stimulants for weak heart—or so-called kidney remedies for diseased kidneys. These organs do not act separately or of their own accord—they have no control over themselves—and not once in 800 times is the sickness the fault of the organ. It is the fault of the nerves which control the organs and only through these nerves can stomach, kidney or heart disorders be cured. Dr. Shoop, of Racine, Wisconsin, learned early in his medical experience that these inside nerves were the power nerves—that through them only was it possible to cure indigestion, heartburn, belching, insomnia, backache, heart weakness, Bright's disease and other affections of the kidneys. For all of these allments are not separate sicknesses, but are not to be treated as such. They are merely symptoms of inside nerve weakness, and when the nerves are restored the symptoms and the sickness disappear. The remedy which Dr. Shoop prescribed for these ailing nerves is known as Dr. Shoop Restorative. It relieves the pain and distress of kidney, stomach and heart troubles quicker even than those medicines designed simply to give temporary relief. Dr. Shoop's Restorative (Tablets or Liquid) can now be had of druggists everywhere. For sale and recommended by

PRESIDENT AND FUNDS GONE

Middleport, O., Bank Fails and People's Money Is Missing.

Pomeroy, O., Sept. 29.—The Middleport Bank, a private institution at Middleport, O., failed to open its doors. It is stated that the greater part of the deposits, amounting to $115,000 is missing, and great excitement prevails.

Most of the depositors are working people, and their deposits represented nearly all their savings. The president of the bank is E. C. Fox. He is away, and in his absence no official statement of the condition of the bank has yet been made. Fox, the president, went away last Tuesday. An examination of the vaults showed $3000 in cash and papers worth less than $50,000 on its face to account for the $115,000 deposited.

ROMANCE SOON WORE OFF

Bride Discovered Half Hour After Ceremony That Husband Drank.

Norristown, Pa., Sept. 29.—A half hour after Justice Lenhardt had married Walter Johnson, of Salem, N. J., and Amanda McClain, of Norristown, the bride returned to the marriage license clerk and demanded that he "revoke the marriage." She said that she did know the bridegroom drank, and that after the ceremony he left her and went into a hotel and got drunk.

The clerk informed her that he could not annul the marriage, that she would have to inaugurate divorce proceedings. She said she'd do it rather than be joined to a man who drank.

CASTRO IS A SICK MAN

President of Venezuela Receives No Callers and Transacts No Business.

Washington, Sept. 29.—Minister Russell, at Caracas, advised the state department by cable that President Castro, of Venezuela, is a very sick man. He is at one of the small suburbs of Caracas, and is so weak that he has to be assisted into or out of a carriage or a train. He received no callers, not even the members of his cabinet and tranacts no official business. The nature of his malady is not generally known, but his friends apprehend that he may never recover his health.

A FIERCE GULF STORM

Does Enormous Damage, But No Deaths Are Reported.

LOSS WILL RUN INTO MILLIONS

Nearly Every House In Pensacola Damaged, With $3,000,000 Loss—Railroads Suffered Severely By Washouts and Obstructions—Wires Down.

Louisville, Ky., Sept. 28.—The tropical hurricane which for 24 hours has been churning the Gulf of Mexico and doing much damage on the coast and far inland, is whipping through North Alabama in a northeasterly direction at a velocity but slightly less than the 48 miles an hour recorded in New Orleans. Reports received by the Associated Press do not indicate any loss of life, but the damage to property is enormous. All wire communication is seriously disarranged, and in some instances has resulted in cutting off cities completely, Mobile, Ala., not having been heard from for nearly 24 hours. Numerous washouts have occurred, the interruption from this cause in one case extending 30 miles.

Pensacola reports a property loss of $3,000,000, and sends rumors of loss of life, which it is impossible to confirm, as the uncertain wire which held long enough to glean this information failed with the coming of night. It is said every house in Pensacola suffered damage.

New Orleans furnished numerous wild rumors during the day, but later reports from there indicate that while there was considerable damage to property, there has been no loss of life. Wires between New Orleans and the Gulf are down, and it may be several days before anything can be heard from the territory between the Crescent City and the Gulf or from the shipping which is riding out the storm in the open Gulf.

The damage to railroads is heavy. Reports to the officials of the Louisville & Nashville railroad from the superintendent of the Mobile and Montgomery divisions indicate that the losses approximate $1,000,000. The tracks between Flomaton, Ala., and Pensacola, Fla., are obstructed, and in some places are badly torn up by falling trees. The section between Georgian and Graceville, Fla., has suffered similarly.

At Pensacola the Louisville & Nashville grain elevator has been destroyed, and the trackage to Escambia Bay is ruined. The railroad wharf at Pensacola is reported a total loss, and 39 carloads of coal were washed into the bay. Further reports indicate that the roadbed between Bay Minette, Ala., and Mobile, a distance of 30 miles, has been washed away. Five hundred section workmen are being rushed from Montgomery and Birmingham to repair the damage.

The waters of Lake Pontchartrain, which for the past 24 hours have been five feet above normal, causing a serious overflow in parts of New Orleans, have receded appreciably. The water in the submerged districts has begun to drain off, and the wind, which veered to the northwest, is driving the waters of the lake towards the Gulf.

New Orleans, Sept. 28.—Passengers arriving here over the Illinois Central said that while the train was stopping at Macon, Miss., a hotel had collapsed in a wind storm there, killing two persons. They said that heavy wind was encountered at Macon.

Great Injury to Cotton Crop.

Montgomery, Ala., Sept. 28.—Specials to the Advertiser indicate that the storm which raged through South and Middle Alabama did incalculable injury to the cotton crops. Most of the cotton was still in the field and this was ruined by rain and wind.

LOCKJAW FOLLOWS VACCINATION

Six-Year-Old Boy Dying In Heartrending Agony.

Tottenville, N. Y., Oct. 1.—Six-year-old Charles Tyan, of Stapleton, is dying in the infirmary at Tompkinsville from an attack of lockjaw caused by vaccination. On Labor Day he was vaccinated by Dr. Charles Pearson, of Tompkinsville. The boy was getting along all right until last week, when his jaws became locked and he stiffened out. Dr. Pearson ordered his removal to the infirmary, where every remedy known to the medical profession has been unavailing. He has gradually grown weaker daily, and Sunday he was seized with convulsions. The intense suffering of the child is heartrending.

FATAL FIGHT WITH NEGROES

White Man Stabs One And Four of Them Open Fire on Him.

Danville, Va., Sept. 25.—As the result of a fight on a bridge near the city between C. L. Perrow, 18 years old, son of a prominent farmer, and four negroes, young Perrow lies at the point of death, and Ed Graves, one of the negroes, was perhaps fatally stabbed by the white man. Perrow and the negroes had been drinking together, and Perrow became involved in a difficulty with Graves, stabbing him several times with a knife. The negroes then fired at Perrow 17 times. George Roberts, one of the negroes arrested, had two pistols, the chambers of which were all empty. Ed Graves, the negro who was cut, is guarded at his home. Three bullets took effect in the body of Perrow.

MILTON'S BIG FAIR.

Management Guarantees That it Will be a Record Breaker

The fall meeting of the Milton Fair Association will be held on Tuesday, Wednesday, Thursday and Friday, October 2nd, 3rd, 4th and 5th. The management promises that this meeting will be one of the best in the society's history. The Milton Fair is an inter-county fair. The indications are that there will be a large exhibit in the stock and machine building departments. There is every promise of a large field of horses for the races. The midway will be as popular as ever, and free from anything tainted with immorality. The attractions this year will be entirely out of the ordinary and are the most expensive ever contracted for by a Central Pennsylvania fair management. Good order will be maintained and the gambler and the crook-have no place at the Milton Fair. All railroads sell excursion tickets at reduced prices.

Has Become Dangerous.

Because it has become a menace to life, the long cave just across the Blair county line near Woodbury has been closed to the public. Ever since the San Francisco earthquake, boulders have been dropping from the ceiling in all parts of the cavern, and falling with such frequency as to be positively dangerous to sightseers. It is presumed that the recent violent seismic disturbance on the Pacific coast shattered the welded roof of the Bedford county cave and time sees it slowly crumbling. Prior to the earthquake the oldest inhabitant of the vicinity had never known a stone to fall. A company of promoters had been formed and was about to secure the cave and establish a summer resort there, lighting the underground passageway with electricity and otherwise enhancing its value, but this has been given up. Thousands of people visited the cave every summer. It was one of the natural curiosities of the country.

Sure of Good Eating.

There will be no doubt of the kind of eating visitors to the Great Centre County Fair will have on Oct. 9-10-11-12. The Bellefonte Evangelical church has taken the eating house on the grounds and the ladies of that denomination are already at work preparing for the greatest business that has ever been undertaken by a party of church workers in Centre county. It will be a wonderful undertaking, but they declare that they can do it and are actually going to serve chicken and waffles for dinner each day.

Several of the Bloomsburg churches do it at the fair in Columbia county each year, but this is the first time it has been tried in Centre county and the ladies will be watched with interest, because every one knows they have the reputation for being grand cooks.

A Freak Kitten.

John Smith, of Pine Creek township, is the possessor of a freak kitten, which was left at or wandered to his place. "Pussy" has the distinction of possessing 22 toes, six on each of the hind paws and five on each of the front paws. In front one of the toes projects out like the thumb on a person's hand. The hind legs are somewhat deformed, for the cat walks on the joint knuckles instead of the paws. The freak kitten attracts much attention. Where it came from Mr. Smith does not know.

A Noted Concert Company Coming.

The famous Ithaca Conservatory Concert company will come to this city next Thurday October 4, and will give one of their excellent concerts in Petrikin Hall. Their program, including soprano and contralto solos, violin solos, readings, duets, etc., affords sufficient variety for the most exacting auditor. Without doubt our people have a splendid treat in store.

Coming Oct. 4th.

One of the finest concert companies on the road will give a concert in Petrikin Hall, Thursday evening. The Ithaca Concert Co. consisting of five young ladies not amatures but professional performers, giving a varied program of duets, trios, solos and quartette, with a talented violinist and a first class elocutionest. We will ensure an evening of rare pleasure. Tickets 35 and 25. Secure your tickets early and exchange for reserved seat at Sheffers store on Tuesday, 35cts. ticket includes reserved seat.

The following testimonial has just been received concerning the concert in Cumberland, Md. The large audience was thoroughly delighted with the program rendered. The audience in point of numbers was double that of last year when the Company was there. Should they return for another engagement a hearty welcome will certainly await them.

MARRIED—At the brides home at Stormstown this county on Wednesday September 26th, Mr. Barton Robison of Port Matilda and Miss Anna Bailey were united in marriage by Rev. J. B. Durkee of Port Matilda Pa.

—Persons who own or operate automobiles in Pennsylvania after December 1st, the beginning of the fiscal year of the state higway department, will be required to display red enamel tags with white letters instead of blue tags with white letters. The new style tags will be ready to issue in about thirty days and in all other respects will be similar to those now issued by the department.

—Frank E. Herder, of Lock Haven, a well known sporting goods man, was the victim of a serious accident the other day. He was handling a gun which had been brought in to be repaired and in walking around the counter in his store, on which the gun lay, the weapon was discharged by falling to the floor, the load entering his right foot. The member was later amputated at the hospital.

—William A. Lyon is nursing quite a sore finger just now. Last week he cut himself ever so slightly. He thought nothing of it at the time and Monday he felt a slight pain that he thought was rheumatism. On Tuesday the pain was not only worse but his entire arm seemed to be affected. He then went to a physician who promptly cut the finger open and cauterized it, as the symptoms were very much like those of blood poisoning

—Drs. R. G. H. Hayes and David Dale have concluded to close their private sanitarium on Spring street. The reason given is that the work there takes up too much of their time from their regular practice. The property will again be put in shape for a residence and Dr. Hayes and family expect to move there from the property they now occupy out near the furnace. Dr. Dale will continue his practice with Dr. Hayes, the two having their offices together.

—Wednesday forenoon Mr. and Mrs. John Olewine and family left Bellefonte in their automobile for a week's trip through the central part of the State. They went from here to Mifflinburg and from there to Lewisburg where they killed two birds with one stone by visiting Mr. and Mrs. Walter Lilly and attending the Union county fair. If their auto keeps in a good humor they may go on to Harrisburg and perhaps to Carlisle to visit the family of Dr. J. E. Ward.

—With the approach of the hunting season trespass notices are becoming ready sale. Really, it appears to the man of good sense that the owner of real estate ought to have first right to game on his premises. Besides this, there are many reckless, destructive hunters who are not worthy the privilege of entering on private property. Just suppose, for a minute, what would happen if the game was owned by local sports and pot-hunters. the farmer would be obliged to keep his and "hisen" behind breast works while the hunting season was on.—Centre Hall Reporter.

—Telegram was received here Friday by Mrs. Catherine Humes, from Pasadena California, announcing the sudden death of her son-in-law, Mr. Luther S. Roberts. The news came as a great shock to the many friends of Mr. and Mrs. Roberts, who both will be well remembered as among our most prominent citizens of many years ago. It is supposed that Mrs. Roberts with their daughter, Miss Bessie, were the only members of the family at home, Dr. Humes Roberts, with his wife, not having yet returned from their trip east, and their younger son Richard, having only recently started on a journy through some of the eastern states.

—Wilbur Twitmire Jr., who recently returned from Troy, Pa., where he played base ball during the summer vacation made an enviable reputation as a pitcher The Elmira Evening Star in commenting on a game played there spoke of Twitmire as follows: "The most interesting thing in connection with to-morrow's game will be the pitchers. Troy's pitcher will be the famous University of Pennsylvania man, Twitmire, who, on the staff with Matty Fennell, the local twirler, made such a remarkable college record. Fennell and Twitmire, two college chums and college pitchers on the same team, will fight it out on equal grounds to-morrow. Twitmire's summer base ball record has been an eviable one also. Twice he has bested the wonderful "Rube" Bressler of the Williamsport Tri-State league."

HENRY H. TWITMIRE.

Probably the Oldest Odd Fellow in the State Has Passed Away.

Henry H. Twitmire, a former resident of Centre county, died Thursday evening September 27th at the home of his son, Dr. T. C. Twitmire at Gallitzin, Pa. About one week ago the aged gentleman fell down stairs and suffered a stroke of complete paralysis. He has passed the 87th milestone in life's journey and was probably the oldest Odd Fellow in the state. For fifty-seven years he had been a member in good standing of Centre Lodge No. 153 I. O. O. F., of Bellefonte.

The remains were brought to Bellefonte Friday afternoon on the 1:25 train and taken to the home of Samuel Decker on North Spring street where the funeral services were held Sunday afternoon at 2 o'clock. Rev. J. Allison Platts, pastor of the Presbyterian church, conducted the services. Interment in the Union cemetery.

New Air Line Files Papers at Harrisburg.

So much has been said regarding the electric railroad, which is to enter Union county and touching New Berlin, will connect New York and Chicago, that people in this section will be pleased to learn that a definite step in the construction of the line has been taken.

A charter application for the proposed trunk line to be built by a syndicate controlled by Joseph Ramsey, Jr., under the name of the Keystone Air Line, was filed in the office of the Secretary of the Commonwealth last week and immediately transmitted by Secretary McAfee to Governor Pennypacker.

The paper states that the Indiana, Clearfield and Eastern, to be twenty-five miles long in Indiana and Clearfield counties; Allentown, Tamaqua and Ashland fifty miles long in Lehigh and Schuylkill counties, and the Brush Creek and Crow's Run Railroads, ten miles long in Beaver county, have arranged for extensions so that they will connect and they ask a charter. The application gives the capital as $450,000, the aggregate capital of the three roads.

The application will not be made public until after it has been acted upon by the Governor.

A PRETTY HOME WEDDING.

Clarence Longacre, a Former Bellefonte Boy Weds a Williamsport Girl.

Clarence F. Longacre, a former Bellefonte boy, and Maude Hulling McCormick of Williamsport, were married Thursday evening at 8:30 at the home of the bride's parents, Mr. and Mrs. H. C. McCormick at Williamsport.

The ceremony was performed by the Rev. Benjamin H. Mosser, pastor of the Pine Street Methodist church. The bride was attended by her two sisters—Mrs. H. N. Blank, of Pittsburg, as matron of honor, and Miss Florence McCormick, of Williamsport as maid of honor. The groom had Sidney Deffenbacher, as his best man. George J. Koons and Charles Shaffer were the ushers. The wedding march was played by the Lettan orchestra, which also played during the evening.

The bride is the second daughter of Mr. and Mrs. McCormick. The groom is manager of the china department at the Bush and Bull store. They are both well known young people and are held in high esteem by a large circle of acquaintances.

The bride was gowned in white sirline over white taffeta. She carried a bouquet of white roses. Her matron of honor was attired in a dress of white chiffon and lace over lavender taffeta. She carried a bouquet of maiden-hair fern. The maid of honor was dressed in a suit of muslininer She had a bouquet of pink china astere.

Among those who attended the wedding were, Mrs. Ella Longacre and daughter, Jennie, of Bellefonte; Mr. and and Mrs. Paul Longacre, of Pittsburg; Mrs. Walter Snyder, of Newark, O., and Mrs. Charles Longacre, of Pittsburg.

SERIOUSLY INJURED.

Horse Frightened at Automobile and Man was Thrown from Buggy.

Wednesday morning Sept. 26, Squire John Keichline, of Bellefonte, had his first case of fining automobilists, who were charged with violating the law in refusing to stop on the public highway after being signaled to stop by occupants of a conveyance approaching in the opposite direction. It seems that Mrs. Richard C. Hall, who is visiting friends at Milesburg, was injured at the Grange Picnic at Centre Hall, and since then has been in the Bellefonte hospital for treatment. Sunday afternoon about 4.50 o'clock, Richard Hall, Charles Hall, Roy Hall, Minnie Aikey and Grace Shook left Milesburg in a carriage belonging to Abe Baum, for Bellefonte, to see how Mrs. Hall was getting along at the hospital. When just outside the borough limits they saw an automobile coming towards them, the occupants being George W. Strong and George A. Fill, of Tyrone, who had been in Bellefonte, and were on their way home. The horses frightened at the machine, broke the carriage and threw Richard Hall out breaking a couple of ribs and probably injuring him internally. The horses got loose from the carriage and ran away.

At the hearing Mr. Strong, who was running the automobile, testified that at the signal he slowed up and practically stopped, while the witnesses for the Commonwealth swore that he didn't stop. After hearing the evidence Squire Keichline fined both Strong and Gill $25 each and costs. This case will be taken to court, as well as a civil case for damages that will be brought.

U. B. Church Appointments.

At the annual conference of the United Brethren church, which closed at Mt. Pleasant on Sunday, the following Centre county appointments were made in the eastern district, of which G. W. Sherrick was reappointed presiding elder: Bellefonte, W. H. Spangler; Houserville, Joseph Miller; Philipsburg, W. G. Stiverson; Port Matilda, G. W. Shires; Runville C. C. Bingham; Sugar Valley, to be supplied. A Davidson has been transferred from Bellefonte to Madison; N. S. Bailey has been assigned to the Claysville charge and R. L. Erhard second church, Braddock.
